DEPOSIT SEED COMPANY

1944
SPRING
EDITION

DEPOSIT, NEW YORK

GENERAL INFORMATION — Please Read Before Ordering

Since successful gardening depends upon soil, fertilization, weather, drainage, skill and other factors beyond our control, in addition to the seeds, we give no guarantee, express or implied, as to productiveness of seeds or bulbs and will not be in any way responsible for the crop. Our liability, in all instances, is limited to the purchase price of the seed.

Prices are subject to change without notice.

REMITTANCES must accompany all orders. Send Post Office or Express Money Order if possible (the cost of a money order may be deducted from the amount sent). Money in Registered Letters is safe. Stamps taken for small amounts. Bank Drafts or Certified Checks will be accepted.

C. O. D. Sending seeds C. O. D. is a useless expense. If you order them C. O. D., send 15c for this extra cost and at least one-fourth of the amount of the order. They will not be sent unless you do this.

CANADA CUSTOMERS please send Money Order. Seeds sent by mail but you pay Duty on seeds. Bulbs will not be sent to Canada.

BANK CHECKS. Please do not send bank checks. We cannot accept them for amounts less than \$1.00. We prefer to have you draw a post office money order for larger amounts. You may deduct the cost of the money order from your remittance. Stamps will be accepted for amounts of less than \$1.00.

ADDRESS. Look at your order the second time to see if you have written your full address, and written it PLAINLY. Hundreds of orders are lost every year because the address is gone or not decipherable.

KEEP A COPY of your order, and should we make a mistake we will gladly correct it.

Season 1944 VICTORY Garden

We know that you will again want to plant a Victory Garden. We, therefore, are continuing this special offer of 14 FULL SIZE PACKETS for 50c.

- 1 pkt. Beet, Early Wonder
- 1/4 lb. Bush Bean, Green Pod
- 1/4 lb. Corn, Golden Bantam
- 1/4 lb. Peas, Laxton
- 1 pkt. Cabbage, Golden Acre
- 1 pkt. Carrot, Half Long
- 1 pkt. Cucumber, White Spine
- 1 pkt. Lettuce, Grand Rapids
- 1 pkt. Onion, Yellow
- 1 pkt. Radish, Early Bird
- 1 pkt. Spinach, Giant-Leaved
- 1 pkt. Tomato, Greater Baltimore
- 1 pkt. Squash, Summer
- 1 pkt. Turnip, Early Snowball

All for only 50¢

SPECIAL OFFER 10 Packets of Flowers 10¢

We are desirous of securing the names of people in your community who plant and enjoy gardens. Therefore, we will send to you 10 full size packets of flower seeds, all different, our selection, for 10c and the names of 10 friends.

**Avail Yourself of This Offer
at Once**

OUR BIG Dollar Garden for 1944

The 32 FULL SIZE PACKETS would cost about \$2.00 if bought elsewhere. We mail them postage paid for only ONE DOLLAR. These collections are made up ready to mail and cannot be changed.

- 1 pkt. Pole Bean, Old Homestead
- 1 pkt. Bush Bean, Butter or Wax
- 1 pkt. Peas, Early
- 1 pkt. Peas, Late
- 1 pkt. Sweet Corn, Early
- 1 pkt. Sweet Corn, Late
- 1 pkt. Beet, Early Blood Turnip
- 1 pkt. Cabbage, Early
- 1 pkt. Cauliflower, Early Snowball
- 1 pkt. Carrot, Oxheart Orange
- 1 pkt. Celery, White Plume
- 1 pkt. Cucumber, Early
- 1 pkt. Cucumber, Pickling Sort
- 1 pkt. Endive, White Curled
- 1 pkt. Lettuce, Hanson
- 1 pkt. Lettuce, Early Prize Head
- 1 pkt. Muskmelon, Rocky Ford
- 1 pkt. Watermelon, Tom Watson
- 1 pkt. Onion, Yellow
- 1 pkt. Mustard, Ostrich Plume
- 1 pkt. Parsley, Triple Curled
- 1 pkt. Parsnip, Hollow Crown
- 1 pkt. Pepper, Perfection Pimento
- 1 pkt. Pumpkin, Pie
- 1 pkt. Radish, Scarlet
- 1 pkt. Radish, White Icicle
- 1 pkt. Spinach, Summer
- 1 pkt. Squash, Hubbard
- 1 pkt. Squash, Golden Summer Crookneck
- 1 pkt. Tomato, Earliana
- 1 pkt. Turnip, Purple Top White Globe
- 1 pkt. Flower Seeds, 200 Sorts Mixed

This Dollar Collection of the **BEST STAND-ARD VARIETIES** is made up to meet the requirements of those who want a good, large garden suitable for family use.

VEGETABLES

Asparagus

Seed may be sown in the spring in rows about 18 inches apart. Fertilize well. When a year old transplant to permanent bed. Crop may be cut the second year after transplanting.

Mary Washington. A superior variety originated by the Department of Agriculture. Shoots long, thick and heavy, and of a rich dark green color. Sure cropper. Rust proof. Finest quality. Pkt., 8c; oz., 14c; $\frac{1}{4}$ lb., 30c.

Giant Argenteuil. A giant variety with tender stalks that are nearly white. Pkt., 8c; oz., 14c; $\frac{1}{4}$ lb., 30c.

Broccoli

Green Sprouting. This resembles a green-headed cauliflower. After the center head is removed, the plant produces many branches each bearing smaller heads, which are just as desirable as the first one. Prepare for the table in the same way as Cauliflower. 55-60 days. Pkt., 10c; $\frac{1}{2}$ oz., 20c; oz., 35c.

Brussels Sprouts

Long Island Improved. Little buds like cabbage heads develop thickly along the stalk of plants about 20 inches tall. Cook in the same manner as Cabbage and Cauliflower. Sow in seed beds in May and transplant about 2 feet apart. Pkt., 15c.

Cress

Fine Curled. (Pepper Grass.) A hardy annual with finely cut and curled green foliage which has a pleasant, spicy flavor. Good for salads, sandwiches and garnishes. 45-50 days. Pkt., 6c; oz., 15c.

Collards

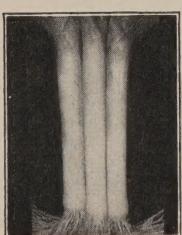

Georgia. A non-heading type of cabbage, which is used largely in the south for greens. Plants 24-30 inches tall with broad, slightly crumpled, spreading leaves. Pkt., 6c; oz., 15c.

Chicory

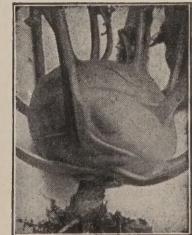

Witloof. (French Endive.) Used largely for salads. Sow in spring in drills, transplanting to 6 inches apart. In fall reset the parsnip-shaped roots in cold frames or greenhouses. The new leaf growth forms an attractive, compact blanched head 5 to 6 inches long with crisp leaves, having a pleasantly sharp flavor. Pkt., 8c; oz., 25c.

Black Beauty Eggplant

American Flag Leek

White Vienna Kohl-rabi

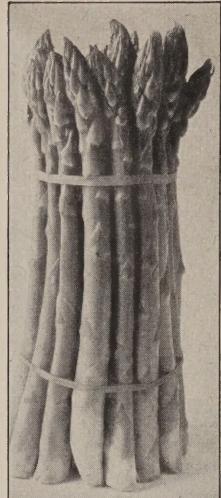

Endive

Sow in drills, thinning to 6 inches apart. When nearly fully grown, blanch by tying the leaves together. Popular for salads.

Broad-Leaved Batavian. (Escarolle.) Plants 16 inches in diameter; leaves slightly cut. Thick ribs form a compact heart which blanches to creamy white. Sometimes used like Spinach. Pkt., 8c; oz., $\frac{1}{4}$ lb., 60c.

Full Heart. Plants medium large with a compact full heart. Leaves broad and well blanched. A little earlier than Batavian. Pkt., 8c; oz., 20c; $\frac{1}{4}$ lb., 60c.

White Curled. Smaller sort. Leaves finely curled with broad ribs, rose tinged. Blanches easily to creamy white heart. Pkt., 8c; oz., 20c; $\frac{1}{4}$ lb., 60c.

Mary Washington Asparagus

Eggplant

Sow seed inside, transplanting to 2 feet apart when the ground is warm.

Black Beauty. Fruit is large, handsome, and of a deep rich dark purple color. Plants robust and prolific. Plants about 26 inches high produce fruit in about 80 days after they are set outdoors. Pkt., 10c; $\frac{1}{2}$ oz., 30c; oz., 50c.

Florida High Bush. Plants are tall and upright, holding the fruit well off the ground, thus preventing rot. They resist drought, blight and wet weather. Fruits are elongated, cylindrical in shape and dark purple in color. Pkt., 10c; $\frac{1}{2}$ oz., 30c; oz., 50c.

New Hampshire Hybrids. Very early variety, bred to produce a good crop in a short season. Fruits oval, produced in 68-73 days from transplanting. Ideal for table use. Pkt., 10c; $\frac{1}{2}$ oz., 30c; oz., 50c.

Kale

Dwarf Curled. This is harder than Cabbage and makes excellent greens for winter and spring use. The leaves are as curly as Parsley, tender and of very fine flavor. It is improved by frost. Pkt., 8c; oz., 20c.

Leek

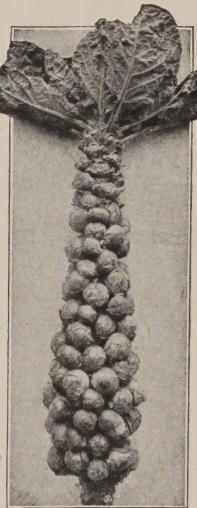

American Flag. A member of the Onion family which should be blanched by earthing up like Celery before using. Long thick, well-blanched stem with large medium-green, drooping leaves. Stems 7-8 inches long and 1-1½ inches thick. Pkt., 10c; oz., 75c.

Kohl-Rabi

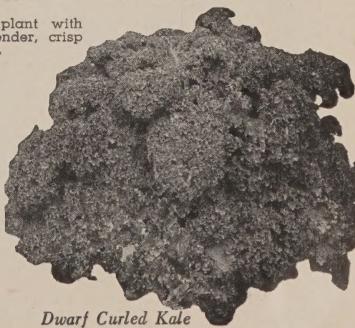

A Turnip-Cabbage flavored plant which forms a bulb above ground on a cabbage-like stem. Use when young and tender, cooking like Turnip.

White Vienna. Bulbs are green, tinted white. Use when the size of a small apple. Pkt., 10c; oz., 50c.

Purple Vienna. Purple-leaved plant with globular purple bulb, flesh tender, crisp and white. Pkt., 10c; oz., 50c.

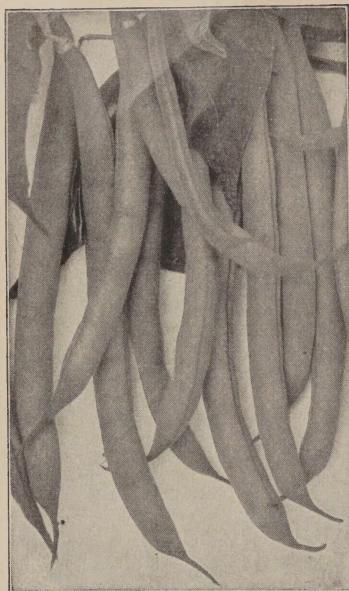

Brussels Sprouts

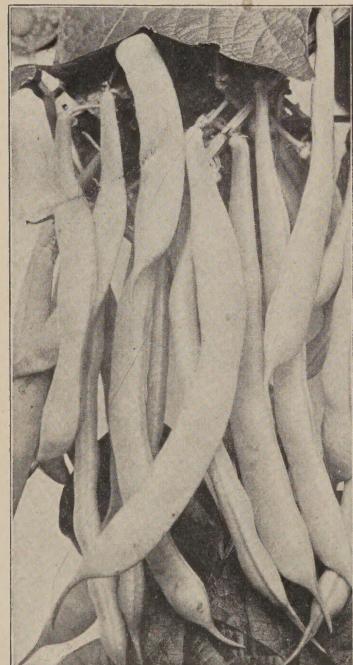

Dwarf Curled Kale

BEANS

Stringless Green Pod

Unrivalled Wax

Plant when ground becomes light and warm about the middle of May in a light well-drained soil. Plant every two weeks for a succession.

Yellow or Wax-Podded Dwarf

Unrivalled Wax. Plants dwarf, erect, stocky and productive. Pods attractive light yellow, narrow, semi-round, stringless when young. Early, producing crop in 52 days. Pkt., 6c; 1/4 lb., 12c; lb., 40c.

Davis White Wax. Plants medium large. Pods thick, flat, light yellow, straight. Seeds white. Dry Beans may be used for baking. Pkt., 6c; 1/4 lb., 12c; lb., 40c.

Round Pod Kidney Wax. (Brittle Wax.) An outstanding sort for canning trade and home garden. Plant large, erect, and productive. Handsome pods, medium yellow, round, slightly curved, extremely brittle. Entirely stringless. Crop in 52 days. Pkt., 6c; 1/4 lb., 14c; lb., 45c.

Kidney Wax. Pods flat, deep golden yellow, about 5 inches long. Seeds white with purple markings. 55 days. An old standard variety. Pkt., 6c; 1/4 lb., 12c; lb., 40c.

Prolific Wonder Wax. (Improved Golden Wax.) For home gardens. Plant small but vigorous. Pods straight, semi-flat, creamy yellow, of fine flavor. 4 1/2-inch pods borne in 51 days. Pkt., 6c; 1/4 lb., 14c; lb., 45c.

Pencil Pod Black Wax. The leading wax variety for home and market gardens. Very productive. Pods round, slightly curved, fleshy, golden yellow, tender and entirely stringless. Beans black. 55 days. Pkt., 6c; 1/4 lb., 14c; lb., 45c.

Hodson Wax. Late bean. Plants sprawling and productive. Pods flat, light waxy yellow. 6-inch pods in 66 days. Pkt., 6c; 1/4 lb., 14c; lb., 45c.

Green-Podded Dwarf

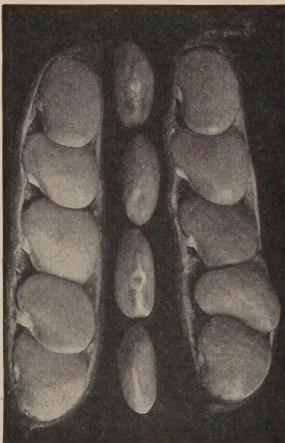

Stringless Green Pod. Bushy productive plants with nearly round pods, slightly curved and stringless. Seed is coffee-brown. 5 1/2-inch pods in 50 days. Pkt., 6c; 1/4 lb., 12c; lb., 40c.

Bountiful. An important early variety producing crop in 49 days. Pods flat, light green, stringless and of good quality. Pkt., 6c; 1/4 lb., 12c; lb., 40c.

Giant Stringless Green Pod. Pods round, meaty and stringless. Plants large, sturdy and prolific. 6 1/2-inch pods in 53 days. Pkt., 6c; 1/4 lb., 12c; lb., 40c.

Tendergreen. This variety is increasing in popularity because of its productiveness and good shipping qualities. Pods average 6 inches in length and are round, straight, dark green and absolutely stringless. Pkt., 6c; 1/4 lb., 12c; lb., 40c.

Dwarf Cranberry. Used for snap beans or green-shelled beans which are ready in about 62 days. Plants of medium size. Pods about 5 inches long, green at first but changing to greenish yellow splashed with red, semi-round. Pkt., 6c; 1/4 lb., 12c; lb., 40c.

Fordhook Bush Lima

Shell Beans

White Marrow. Plant large with semi-runners. Hardy, productive. Seed short, oval, white. 100 days to mature. Pkt., 6c; 1/4 lb., 12c; lb., 40c.

Royal White Kidney. Seeds long, white, kidney-shaped. Excellent for winter use. Very productive. 100 days. Pkt., 6c; 1/4 lb., 12c; lb., 40c.

Bush Lima Beans

Fordhook Bush Lima. Plant large, upright and very productive. Pods are straight, containing 3 to 4 large, thick, oval beans of fine quality. 75 days to mature. Pkt., 6c; 1/4 lb., 14c; lb., 45c.

White Wonder Lima. Pods 5 to 6 inches long filled with large, plump, flat, oval beans. Early and very productive. 75 days. Pkt., 6c; 1/4 lb., 12c; lb., 42c.

Jackson Wonder Lima. (Calico Lima.) Plants small and spreading. Drought resistant, thrifty and productive. Pods flat, containing 3 to 4 strongly flavored beans. Seed small, buff, mottled with black. 65 days. Pkt., 6c; 1/4 lb., 12c; lb., 40c.

Henderson Bush Lima. (Baby Lima.) Earliest small bush Lima. Plants of medium size producing in 67 days pods 3 inches long containing 3 small flat beans of delicious flavor. Pkt., 6c; 1/4 lb., 12c; lb., 40c.

Pole Beans

Kentucky Wonder or Old Homestead. The most popular of all the green-podded pole beans. People who plant them once always want them again. Vines often bear a peck of pods of a silver-green color 7 to 9 inches long. Solid, meaty, stringless, and finest quality. 65 days to mature. Pkt., 6c; 1/4 lb., 12c; lb., 40c.

Golden Cluster Wax. One of the earliest and a great producer; pods hang in clusters of three all over the vine. This popular sort is grown and admired everywhere. Beans white and of the finest possible quality, either as a snap or shell bean. Pod straight and flat, produced in 74 days. Pkt., 6c; 1/4 lb., 14c; lb., 45c.

Kentucky Wonder Wax. One of the best and most productive Pole Beans known. A vigorous, hardy grower, compact; resembling in vine and habit the popular green pod Kentucky Wonder or Old Homestead. Very productive, stout flat pods 5 to 6 inches long, of a clear, waxy yellow, strictly stringless and almost free from fibres; very fleshy, brittle, fine grained and of excellent quality. 68 days for crop. Pkt., 6c; 1/4 lb., 14c; lb., 45c.

White Kentucky Wonder. Plants 4 to 5 feet tall. Pods nearly round, silvery green, tender and stringless. Pure white beans may be used for shell beans. 64 days. Pkt., 6c; 1/4 lb., 12c; lb., 40c.

Lazy Wife. (White Cranberry.) One of the best for snaps of the later green-podded Pole Beans. Pods, borne in large clusters, are long, broad, thick and fleshy. Dry beans are excellent for winter use. Seed white. 74 days to mature. Pkt., 6c; 1/4 lb., 12c; lb., 40c.

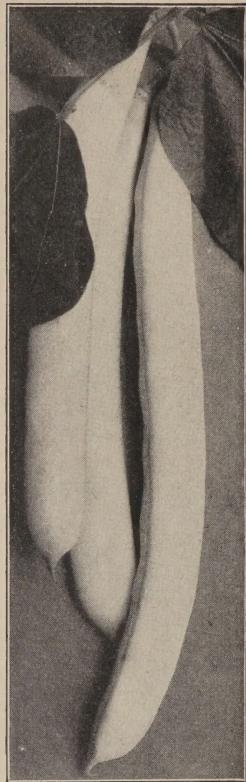

Mammoth Horticultural. (Cranberry.) 73 days. Beans are of large size, oval in shape and of the highest quality either green shelled or dry. Vines are vigorous. The pods are very long, 6 to 7 inches, striped or splashed deep, brilliant red. This is the most attractive and finest Bean of the Horticultural Pole Beans. Pkt., 6c; 1/4 lb., 12c; lb., 40c.

Scarlet Runner. Height, 10 feet with dazzling scarlet flowers from July to October; both ornamental and useful. It is used either as a string or shelled bean. Pods broad, thick, flat and green. 90 days to produce crop. Pkt., 6c; 1/4 lb., 12c; lb., 40c.

Inoculated seed draws nitrogen from the air, produces nodules on roots which enrich the soil and make the plant grow.

INOCULATE THIS SEED WITH
LEGUME-AID

Combination for Peas, Sweet Peas, Garden and Lima Beans. Will inoculate 5 lbs. seed. Pkt. 10c.

Kentucky Wonder Wax

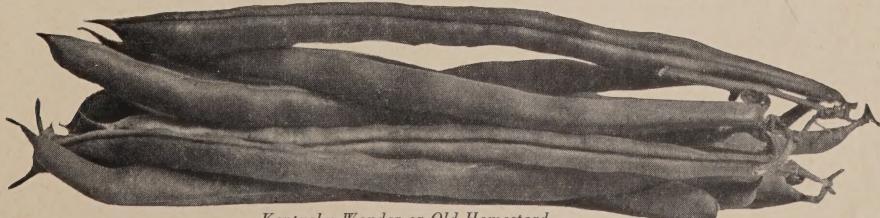

Pole Lima Beans

Leviathan Lima. Plants 6 feet tall, vigorous and prolific, produce broad, straight pods containing 5 to 6 beans. 79 days. Pkt., 6c; 1/4 lb., 14c; lb., 45c.

Giant Podded Lima. Vigorous, productive plants 8 to 10 feet tall produce large pods containing 4 to 5 oval flat beans of fine quality in 90 days. Pkt., 6c; 1/4 lb., 14c; lb., 45c.

King of the Garden Lima. Best known Pole Lima. Vigorous plants. Large white oval beans produced in flat pods in about 88 days. Pkt., 6c; 1/4 lb., 14c; lb., 45c.

3 lbs. of any variety of Beans at 40c for \$1.10; 3 lbs. of 45c Beans for \$1.25.

Kentucky Wonder or Old Homestead

BEETS

Beet, Detroit Dark Red

Sow seed in early spring in drills, thinning to 3 inches apart. For winter use, sow about August 1st. 1 oz. will sow 100 feet of drill.

Detroit Dark Red. 60 days to mature. A standard variety for gardeners. Flesh dark red with indistinct zones and of fine quality, the tops large. Pkt., 10c; oz., 20c; $\frac{1}{4}$ lb., 70c; 1 lb., \$2.00.

Early Wonder. 52 days for crop. A remarkably extra early, perfectly shaped, round, deep red Beet—earlier and if possible, handsomer than the popular Crosby's Egyptian. Regular form, deep crimson-colored flesh of fine, sweet flavor. A quick growing Beet for market gardeners' trade, pickling or early table use. Pkt., 8c; oz., 18c; $\frac{1}{4}$ lb., 60c; 1 lb., \$2.00.

Early Blood Turnip. 68 days. A good sized strain of round, red, turnip-shaped Beet which is grown more than any other for general use. Good keeper. Fine flavor. Excellent for home use or market. Pkt., 8c; oz., 18c; $\frac{1}{4}$ lb., 60c; 1 lb., \$2.00.

Crosby's Egyptian. 52 days. Deep red, almost black in color; an improvement over the old Egyptian, being sweeter, more tender, smoother, and also more round in form and larger, although equally as early. The most desirable sort for small Beets for early market. It is a very rapid grower and can be sown outside as late as July. Our strain is extremely early, and very uniform in shape and color. Pkt., 8c; oz., 18c; $\frac{1}{4}$ lb., 60c; 1 lb., \$2.00.

Crimson Globe. 69 days. Roots very handsome, globe-shaped and has remarkably smooth surface. Both the skin and flesh are deep, rich red, fine grained, sweet and tender in all stages of growth. Good for main crop. Pkt., 8c; oz., 18c; $\frac{1}{4}$ lb., 60c; 1 lb., \$2.00.

D. S. C. Sugar Beet Used for Sugar Making

This is best strain of Klein Wanzleben which is acknowledged to be the best for sugar making. Cut Beets in thin slices and soak in hot water 60 minutes. Take the liquid and boil down the syrup, taking off the scum while boiling. When like syrup, can or bottle while hot and seal tightly to prevent molding. One bushel of Beets makes about 5 quarts of good syrup.

This handsome Sugar Beet will yield nearly as much as a Mangel Wurzel and is better and sweeter. Very desirable to raise for stock feeding and is used by many for table. Pkt., 8c; oz., 15c; $\frac{1}{4}$ lb., 50c; 1 lb., \$1.75.

MANGEL-WURZEL

Gate Post

A giant yellow midway between the long and short Mangels. Roots very large, heavy and solid, quality fine for stock feeding. Sure cropper and easily harvested. Called Gate Post because so large. Oz., 15c; $\frac{1}{4}$ lb., 50c; 1 lb., \$1.75.

Golden Tankard

Richest and Best Yellow for Feeding Stock—
Great Milk Producer

It is an immense yielder and 60 to 75 tons per acre have often been grown on good ground and under good cultivation. The roots are handsome, of an ideal, cylindrical form, with small neck, clean generally with only one tap-root, and deep orange below the ground. The flesh is bright golden yellow. Oz., 15c; $\frac{1}{4}$ lb., 50c; 1 lb., \$1.75.

Giant Long Red

A standard and favorite Mangel, producing a very large root and uniformly straight and well formed, weighing from 10 to 30 pounds each, of a beautiful dark red color, wonderfully productive, average 1,000 to 1,500 bushels per acre. Keeping qualities not excelled. Oz., 15c; $\frac{1}{4}$ lb., 50c; 1 lb., \$1.75.

Rose Sugar

A heavy yielding valuable variety for feeding. Roots long, oval, skin white with rose-colored shoulder. Flesh white with good sugar content. Pkt., 8c; oz., 12c; $\frac{1}{4}$ lb., 45c; 1 lb., \$1.50.

Swiss Chard, Lucullus

Swiss Chard

Lucullus. Very large and distinct variety of Swiss Chard, Sea Kale or Asparagus Beet. The stalks are as thick and broad as Rhubarb. The stalks grow to a height of from 2 to 2½ feet, and leaves are from 10 to 12 inches long and 1½ inches broad. This is not only the handsomest, but is one of the best varieties of this desirable salad. The outside leaves of Swiss Chard are used as "boiling greens" and are excellent for this purpose. The large, white stalks are used like Asparagus; they are boiled and served in melted butter or milk dressing and are fully as delicious and even more tender than Asparagus. The extra large leaves of thick texture are heavily crumpled or "savoyed" and of fine flavor. Pkt., 8c; oz., 18c; $\frac{1}{4}$ lb., 60c; 1 lb., \$2.00.

White. A medium tall sort with broad, smooth, medium green leaves. Stems fleshy, broad, white with greenish tinge. Pkt., 8c; oz., 18c; $\frac{1}{4}$ lb., 60c; 1 lb., \$1.75.

CABBAGE

Start plants in hotbed and transplant about 18 inches apart. For later crop, sow outside in May or June, transplanting in July. Number of days refers to time from setting plants to maturity. Prices in $\frac{1}{4}$ lb. and 1 lb. lots will be furnished upon request.

Early Jersey Wakefield. 63-66 days. Extra early pointed head Cabbage. Small plants with short stems. Medium sized, hard, solid heads with few outside leaves. Pkt., 8c; $\frac{1}{2}$ oz., 40c; oz., 75c.

Golden Acre. 63-66 days. Extra early, Copenhagen type with round heads, medium size (4-5 lbs.), very firm. Plants are compact so they may be set close together. Very popular for early market. Pkt., 10c; $\frac{1}{2}$ oz., 50c; oz., \$1.00.

Mammoth Wakefield. 70-75 days. Largest Wakefield Cabbage with pointed firm heads nearly twice the size of Jersey Wakefield, although 10 days later. Pkt., 8c; $\frac{1}{2}$ oz., 40c; oz., 75c.

Copenhagen Market. 69 days. Early and uniform. Outer leaves few and gray-green, short stem, heads round, solid and of fine quality. Good for a short season. Pkt., 10c; $\frac{1}{2}$ oz., 50c; oz., \$1.00.

New Glory (Glory of Enkhuizen). 77 days. Popular for main crop. Heads large, round, solid with few outer leaves. Excellent quality. Pkt., 8c; $\frac{1}{2}$ oz., 40c; oz., 75c.

Premium Flat Dutch. 100 days. A late, large, flat-headed variety, popular for its heavy yield. Solid heads 6½-7 inches deep. Pkt., 10c; $\frac{1}{2}$ oz., 50c; oz., \$1.00.

Danish Ballhead. 105 days. Most widely used and best type of late Cabbage for kraut, for storage, and for shipping. Plant fairly large, sturdy with short stem. Heads deep round, very hard; interior decidedly compact. Texture crisp and crisp, flavor good; ideal for high quality kraut. Pkt., 10c; $\frac{1}{2}$ oz., 50c; oz., \$1.00.

Penn. State Ballhead. 105 days. A fine strain of the popular Ballhead brought out by the Pennsylvania State College of Agriculture. It is an improved Ballhead, hardy, disease resistant, large, solid, heavy, often weighing 25 lbs. Good header of fine quality. Pkt., 10c; $\frac{1}{2}$ oz., 50c; oz., \$1.00.

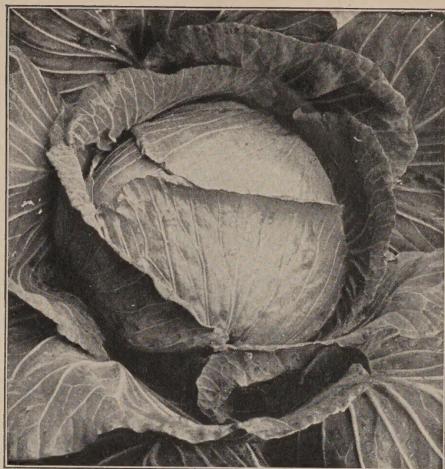

Marion Market. 80 days. A popular Yellow Resistant strain. A development from Copenhagen Market but with slightly larger, round, firm heads. Valuable as an early kraut variety. Pkt., 10c; $\frac{1}{2}$ oz., 40c; oz., 75c.

Surehead. 90 days. One of the very best late Cabbages. Heads are very uniform in shape, weighing ordinarily from 10 to 15 pounds each. Of very fine quality, solid and of fine texture. Certain to head, drought resisting, about 10 days earlier than Danish Ballhead. Pkt., 10c; $\frac{1}{2}$ oz., 50c; oz., \$1.00.

Drumhead Savoy. 90 days. Heads nearly round, full and hard; leaves large, coarsely crimped, rich dark green. Very tender and delicate in flavor. Pkt., 8c; $\frac{1}{2}$ oz., 40c; oz., 75c.

Mammoth Red Rock. 100 days. A large strain of the standard red Cabbage. Heads round, very hard, color purplish red; a fine keeper. Pkt., 10c; $\frac{1}{2}$ oz., 50c; oz., \$1.00.

Chinese Cabbage (Chihili or Improved Pekin). 75 days. Early and dependable in heading. Heads are pointed, firm and when matured are often 18 inches long. They are pure white inside, tender and of fine quality. Pkt., 10c; oz., 25c.

Golden Acre Cabbage

Chinese Cabbage

Snowball Cauliflower

CAULIFLOWER

Culture. Like Cabbage, for early crop, sow in hotbeds, transplanting when ground is ready. For late crop sow in May or June outside. Grows best in cool weather. Number of days refers to time from transplanting to maturity.

Super Snowball. 56 days. Very desirable for main crop. Starts heading early and uniformly. Heads medium large, compact and white. Pkt., 10c; $\frac{1}{8}$ oz., 60c; $\frac{1}{4}$ oz., \$1.00; 1 oz., \$3.50.

Early Snowball. 55 days. The best known variety of Cauliflower. Plants dwarf with short pale green leaves. Heads medium, firm, compact, solid, pure white and of good quality. Very dependable. Pkt., 10c; $\frac{1}{8}$ oz., 60c; $\frac{1}{4}$ oz., \$1.00; 1 oz., \$3.50.

Giant Dry Weather. (Danish Giant.) 67 days. Well adapted to dry weather conditions. Larger than Early Snowball and of larger growth. Heads creamy white of excellent quality. Pkt., 10c; $\frac{1}{8}$ oz., 60c; $\frac{1}{4}$ oz., \$1.00; 1 oz., \$3.50.

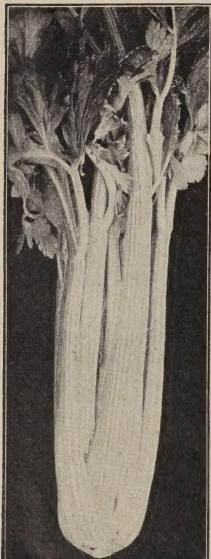

CARROTS

Imperator Carrot

Perfect Half-Long Carrot

Self-Blanching Celery

Carrots like a rich sandy loam. Sow seed $\frac{1}{2}$ inch deep as soon as the ground can be worked, for early crop. Thin to 3 inches apart. An ounce will plant 300 feet of row.

Imperator. 77 days. An outstanding type of long, smooth, handsome Carrot. Tops medium but strong enough for good bunching. Roots have rounded shoulders, smooth, deep rich orange; uniformly tapered to a semi-blunt end. Fine grained, tender and of excellent quality. Pkt., 10c; oz., 35c; $\frac{1}{4}$ lb., \$1.25.

Early Scarlet Horn. 64 days. Used for early market. Tops slender and short; roots tapered and blunt, like a small short Chantenay. Crisp red-orange flesh. Pkt., 10c; oz., 35c; $\frac{1}{4}$ lb., \$1.25.

OXHEART ORANGE. 72 days. One of the best for a thin soil where long roots do not get down. An extra good sort for all soils and purposes. Roots short, thick, and of the finest quality; beautiful in appearance and easy to harvest. Grows quickly for early use. Pkt., 10c; oz., 35c; $\frac{1}{4}$ lb., \$1.25.

Red-Cored Chantenay. 72 days. Roots are tapered, less stump-rooted and slightly longer than the old Chantenay, averaging about 6 inches long. Interior is solid orange color without the usual lemon color at the core. Pkt., 10c; oz., 35c; $\frac{1}{4}$ lb., \$1.25.

Perfect Half Long (Canvers Half Long). 75 days. An excellent, broad-shouldered half long, stump-rooted sort growing very smooth and cylindrical, with no waste. Excellent rich yellow color, finest possible flavor and very productive. Easily harvested and a good table or stock sort. Pkt., 10c; oz., 35c; $\frac{1}{4}$ lb., \$1.25.

Nantes Coreless. 70 days. Tops very small. Roots bright orange, cylindrical, blunt ended. Flesh reddish orange, crisp, tender and of delicate flavor. Practically coreless. Pkt., 10c; oz., 35c; $\frac{1}{4}$ lb., \$1.25.

Mother's Favorite (Improved Chantenay). 70-72 days. Most popular Carrot for general use and market. Roots grow 5 $\frac{1}{2}$ -6 inches long, tapering slightly and are quite stump rooted. Color deep orange. Pkt., 10c; oz., 35c; $\frac{1}{4}$ lb., \$1.25.

Long Orange. 85-88 days. Large top, very long, slightly tapered through entire length. Color deep orange. Old standard variety for winter storage. Also used for stock. Pkt., 10c; oz., 35c; $\frac{1}{4}$ lb., \$1.25.

Prices of Carrot in larger quantities will be furnished upon request.

CELERY

Celery seed germinates slowly. Plant in hoed, transplanting when 3 inches high 4 inches apart. Celery needs a great deal of water. To blanch, draw earth around the plants. Boards or paper may be used. Number of days refers to time from transplanting to maturity.

Golden Self-Blanching. 112-115 days. This grand variety grows 18 to 20 inches high, is wonderfully stocky, very heavy, perfectly solid, of desirable flavor and good keeper. The color is a rich golden yellow. It can be easily blanched by drawing the leaves together and bringing the earth up around the plant. For fall or early winter use this has no superior. Pkt., 10c; $\frac{1}{2}$ oz., 35c; 1 oz., 60c.

White Plume. 110-115 days. Early market type; medium tall, slender, compact bunch. Foliage light green, tinged with white; easily blanches a snowy white. Crisp, solid, good flavor and quality. Pkt., 10c; $\frac{1}{2}$ oz., 35c; oz., 60c.

Golden Plume (Wonderful). 112-117 days. Unusually thick set and compact, and attains exceptional weight. Especially good for a late crop. Stalks crisp, solid and of exceptional flavor and quality. Pkt., 10c; $\frac{1}{2}$ oz., 35c; oz., 60c.

Giant Pascal. 135-140 days. The old standard green variety. Tall, large, dark green foliage. Large full heart which bleaches to creamy white. Stalks long, broad and solid, of excellent nutty flavor. Pkt., 10c; $\frac{1}{2}$ oz., 35c; oz., 60c.

Easy Blanching. 105-110 days. An excellent kind for late fall or early winter use. Resembles Golden Self-Blanching in shape and size but blanches to pure white instead of light yellow. Pkt., 10c; $\frac{1}{2}$ oz., 35c; oz., 60c.

Celeriac

(Turnip-Rooted or Knob Celery)

Sow the same as Celery. Used for adding Celery flavor to soups.

Large Prague. Globular, perfectly smooth bulbs 2 $\frac{1}{2}$ -4 inches in diameter are the edible portion, while the hollow light green stalks are not edible. Pkt., 10c; $\frac{1}{2}$ oz., 30c; oz., 50c.

DEPOSIT SEED COMPANY

SWEET CORN

Plant Corn when ground becomes warm, in hills 3 feet apart, 4-6 kernels in each hill. When 6 inches high, thin to 3 or 4 plants in a hill. Hoe frequently.

Chart of Varieties Showing Relative Size and Earliness

	Height of Stalk in Feet	Length of Ear in Inches	Days to Mature
Early Golden Gem	4	6	67
Early Golden Sunshine	5½	6½	74
Golden Bantam Improved	5½	7	82
Wonder Bantam	6	7½	85
Delues Golden Giant	7	7½	87
Bantam Evergreen	8	8	95
Howling Mob	7	7½	83
Early Evergreen	7½-9	7½	96
Country Gentleman	7	7	95

HYBRID CORN

Golden Cross Bantam	6	8	85
Marcross	5	7	72
Spancross	6	7	75

Early Golden Gem. Short plants frequently bearing 2 ears. 8 rowed, rather small. Kernels deep yellow, tender and sweet. Pkt., 6c; ¼ lb., 14c; lb., 40c.

Early Golden Sunshine. A good early market garden variety. Ears 10-12 rowed. Kernels medium broad, golden yellow, sweet and tender. Pkt., 6c; ¼ lb., 12c; lb., 35c.

Golden Bantam. Long the standard yellow variety. Ears 10-12 rowed, uniform and attractive. Kernels golden yellow, medium wide, deep, sweet and of fine flavor. Pkt., 6c; ¼ lb., 12c; lb., 35c.

Wonder Bantam. Somewhat longer ear and slightly taller stalk than regular Golden Bantam. Ears 8 rowed. Kernels broad, tender and of good flavor. Pkt., 6c; ¼ lb., 12c; lb., 35c.

Delues Golden Giant. Ears rather thick at the butt. 12-16 rowed. Kernels golden yellow. Large producer. Pkt., 6c; ¼ lb., 12c; lb., 35c.

Bantam Evergreen. Bantam Evergreen is a cross between Golden Bantam and Stowell's Evergreen. It has inherited all the good qualities of both parents. It is as sweet as Golden Bantam, the same beautiful color, but in addition has an ear nearly as large as Stowell's. The kernels are deep grained, plump, a beautiful cream golden color. Three weeks earlier than Stowell's Evergreen. Pkt., 6c; ¼ lb., 12c; lb., 35c.

Hybrid Corn

We caution our customers against saving seed from Hybrid Corn as the seed must be produced by crossing each year.

Spancross. An extra early yellow hybrid, with medium sized ears and stalks. Resistant to wilt and somewhat resistant to cold as it can be planted in late April in southern Connecticut. Pkt., 8c; ¼ lb., 15c; lb., 50c; 3 lbs., \$1.35.

Marcross. Developed as a first early market and home garden variety. Stalks short and sturdy, large eared, will resistant. Pkt., 8c; ¼ lb., 15c; lb., 50c; 3 lbs., \$1.35.

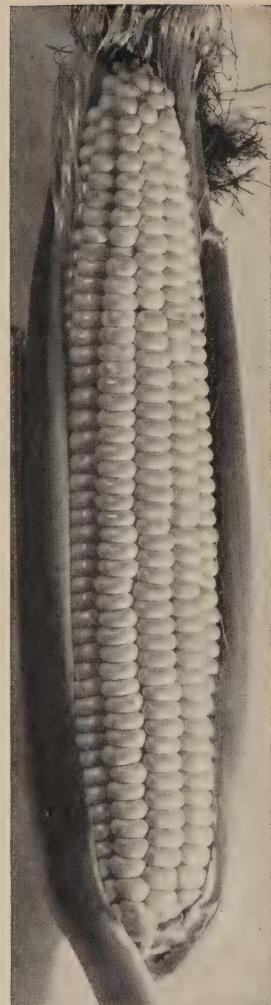

Golden Cross Bantam. Extremely uniform in plant and ear characteristics and in maturity. Disease resistant. Most extensively used by canners and market gardeners. Very productive. Pkt., 8c; ¼ lb., 15c; lb., 50c; 3 lbs., \$1.35.

White Corn

Howling Mob. Strong vigorous grower, producing 2 ears 7 to 9 inches long on each stalk. It is only a few days later than the Extra Earliest and as large and sweet as the best medium early sorts. Pkt., 6c; ¼ lb., 12c; lb., 35c.

Early Evergreen. Stalks grow 8 to 10 feet high and usually produce two monstrous ears to each stalk. Ears 16 to 20 rowed, very large with deep kernels. A very desirable main crop variety for home garden and market, and well adapted for canning. Pkt., 6c; ¼ lb., 12c; ½ lb., 35c.

Country Gentleman. Small peglike kernels, irregularly placed on the cob. Medium sized ear, with small cob, giving great depths to the kernels. The quality of this variety is fine and is preferred by some to all others. Pkt., 6c; ¼ lb., 12c; lb., 35c.

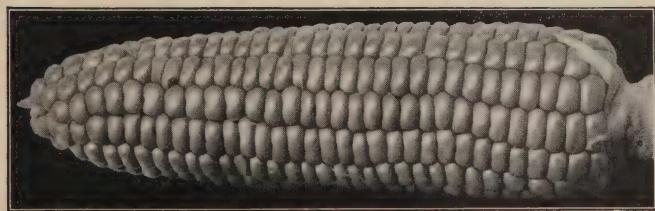

Golden Cross Bantam

Pop Corn

Australian Hullless. Ears chunky and without row formation. Kernels white, narrow, pointed, pop to large snowy white. Very little chaff. Pkt., 6c; ¼ lb., 12c; lb., 35c.

White Rice. An old standard early variety (90 days). Kernels are pointed. Grows about 6½ feet tall. Pkt., 6c; ¼ lb., 12c; lb., 35c.

Golden Queen. Tall vigorous plants with long slim ears. 12-16 rows of smooth, yellow, broad kernels. 90 days. Pkt., 6c; ¼ lb., 12c; lb., 35c.

The Ever-Popular Golden Bantam

CUCUMBERS

Sow cucumber seed in warm sandy soil, if possible, as soon as danger of frost is past. Sow thickly half an inch deep in hills 4 feet apart each way, thinning out to 3 or 4 plants to the hill.

Clark's Special. 63 days. Fruits handsome, dark green in color, gently tapered at both ends. Flesh is crisp and firm. Holds its color, firmness and edibility very well. Fruits grow to 8½ inches in length. Pkt., 8c; oz., 20c; ¼ lb., 75c.

Early Cluster. 55 days. Small fruits borne in clusters, chunky, uniform, medium green. Excellent for pickles. Popular for early slicing also. Pkt., 8c; oz., 20c; ¼ lb., 70c.

Straight Eight. 66 days. Cucumbers are about 8 inches long when ready for use, always straight, cylindrical and smooth with blunt ends. Medium green and very uniform. Pkt., 10c; oz., 25c; ¼ lb., 80c.

Early Fortune. 64 days. An old favorite of good shape and color. Popular for shipping and slicing. Dark green, slightly tapering, with firm flesh. Pkt., 8c; oz., 20c; ¼ lb., 75c.

Snow's Pickling. 56 days. Early and prolific. Deep green fruit, square ended, uniform and attractive. Pkt., 10c; oz., 20c; ¼ lb., 70c.

Jersey Pickling. 63 days. Fruits uniformly slender, medium green, tapered at both ends. A standard pickling variety. Pkt., 8c; oz., 20c; ¼ lb., 70c.

Green Prolific Pickling (National Pickling). 56 days. Fruits dark green, symmetrical, with thick walls; full ended. Developed by the National Pickle Packers Association as the best all-around pickler. Pkt., 10c; oz., 22c; ¼ lb., 75c.

Deposit White Spine (Arlington White Spine). 62 days. Fruits medium green (about 7½ inches long), smooth, attractive appearance. Pkt., 8c; oz., 20c; ¼ lb., 70c.

Japanese Climbing. 70 days. This variety grows rapidly on poles or trellises and bears abundantly throughout the season. Fruit is excellent quality, dark green with pure white flesh. Good size. Pkt., 10c; ½ oz., 15c; oz., 25c; ¼ lb., 75c.

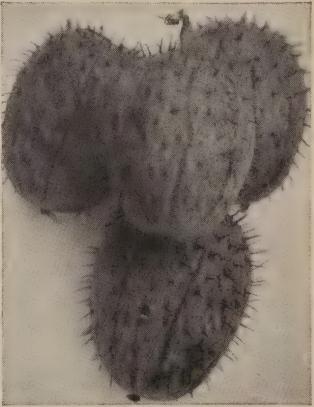

Longfellow. 70 days. Long, slender, dark green Cucumber with fruit 12-16 inches long and 2 inches in diameter at the pickling stage. Desirable for home garden or shipping. Pkt., 10c; oz., 30c; ¼ lb., 80c.

Improved Long Green. 67 days. Standard variety with long, straight, dark green fruit. Heavily warted. Flesh white and crisp. Fine for pickling, slicing and market. Pkt., 8c; oz., 20c; ¼ lb., 75c.

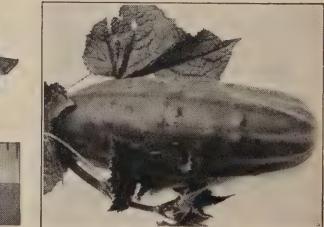

Davis Perfected. 65 days. An improved strain of white spine. Fruit dark green, tapered at both ends. Flesh crisp and of good quality. Pkt., 8c; oz., 20c; ¼ lb., 75c.

White Wonder. 65 days. Ivory to creamy yellow with spines varying black to brown, medium sized with crisp, mild flesh. Used in salads and as a novelty. Pkt., 10c; oz., 25c.

West India Gherkins. 60 days. Used for very small pickles. Fruits pale green, covered with prickly spines, oval and uniform. Pkt., 10c; oz., 25c.

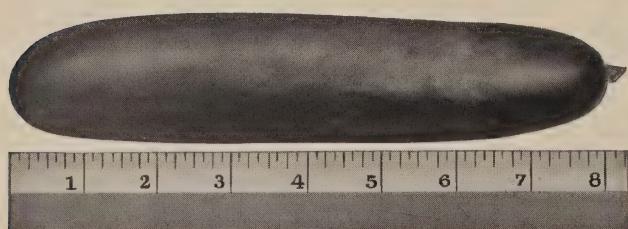

West India Gherkin

Green Prolific Pickling

Davis Perfect

Straight Eight

LETTUCE

Hardy, may be sown very early in spring. Heading sorts require better soil than loose leaved.

Loose Leaf Varieties

Grand Rapids. 43 days. Most popular sort for early planting or greenhouse forcing. Forms loose clusters of large, thin, bright green leaves that are very curly and fringed. Pkt., 8c; oz., 20c; 1/4 lb., 60c.

Early Prizehead. 47 days. Plants of medium size, crisp and tender, color light reddish brown on a medium green base. Leaves crumpled and highly frilled at the edges. Fine flavor. Pkt., 8c; oz., 20c; 1/4 lb., 60c.

Black Seeded Simpson. 45 days. One of the best varieties for early planting. Leaves are large, frilled and crumpled, light yellowish green. Pkt., 8c; oz., 20c; 1/4 lb., 60c.

Chicken Lettuce. A hardy, tall growing, non-heading, dark green variety producing the largest amount of leaves of any Lettuce, for poultry and rabbit feed. Pkt., 8c; oz., 20c; 1/4 lb., 50c.

Cos Lettuce

Heading Varieties

California Cream Butter. 75 days. Heads large, globular, solid with golden yellow interior. Leaves large, thick, dark green, tinged and spotted with brown. Pkt., 8c; oz., 30c; 1/4 lb., \$1.00.

Hanson. 80 days. An old favorite which is sure to head. Heads large, globular, compact, tender and sweet. Leaves yellowish green, curly. Pkt., 8c; oz., 25c; 1/4 lb., 60c.

D. S. C. Perfection (New York or Wonderful). 80 days. A large curled heading Lettuce with dark green outer leaves which are slightly curled. Heads are well blanched, sweet, tender and of excellent quality. Pkt., 8c; oz., 30c; 1/4 lb., 60c.

Iceberg. 84 days. A large, late variety with wavy, fringed, light green leaves. Heads compact, crumpled, crisp and sweet, white interior. Fine for home gardens. Pkt., 8c; oz., 25c; 1/4 lb., 60c.

Big Boston. 75 days. Medium sized, compact head with creamy yellow heart. Leaves smooth and glossy. Edge slightly tinged with brown. Pkt., 8c; oz., 24c; 1/4 lb., 60c.

White Big Boston. 76 days. A Lettuce similar to the famous Big Boston but altogether free from the reddish tinge on the outer foliage. The outer leaves are of medium size, of bright green color, enclosing the whitish green head. The heart is tightly folded, of a bright creamy yellow color, and a tasty, sweet and crisp flavor. Pkt., 8c; oz., 20c; 1/4 lb., 60c.

Head Lettuce

MUSTARD

This is used as a salad vegetable or cooked like Spinach. Sow thinly in rows about a foot apart.

Fordhook Fancy. (Ostrich Plume) A handsome upright growing mild variety which is slow to go to seed. Leaves green and plume-like. Pkt., 8c; oz., 20c.

Chinese. Plants medium, large and vigorous. Leaves broad and large. Mild flavor. Pkt., 8c; oz., 20c.

White. Quick growing tall plant which goes to seed quickly. Dark green pungent leaves which may be used for salads when young. Grown chiefly for seeds which are ground for table mustard. Pkt., 8c; oz., 20c.

Loose Leaf Lettuce

Romaine or Cos Varieties

Dark Green Cos. 65-70 days. Medium large heads which are cylindrical with long tapered tip, well closed and solid. Outer leaves are dark green, long, finely savoyed. Interior creamy and crisp with endive-like flavor. Pkt., 10c; oz., 20c.

White Paris Cos. 65-70 days. A medium large self-folding sort with medium dark green smooth leaves. Heads solid with greenish white interior. Pkt., 10c; oz., 20c.

Mixed Lettuce. Our own mixture of all varieties of Lettuce. Pkt., 8c; oz., 30c; 1/4 lb., 60c.

MUSKMELO

Muskmelon, Bender's Surprise

Sow seeds 10-12 to a hill covering with about an inch of soil. Rich sandy loam is preferable.

Sugar Rock (Honey Rock). 81 days. Early and of fine quality. Melons nearly round, weighing about 4 lbs. Skin, gray green covered with coarse netting. Flesh thick, juicy, orange-salmon with fine flavor. **Pkt., 8c; oz., 20c; 1/4 lb., 60c.**

Hale's Best. 82 days. A new and remarkably early Melon of the Rocky Ford type, with very thick and finely flavored salmon flesh. The melons are oval, slightly ribbed, and heavily netted. It is a fine shipper and commands a good price. This has been one of the favorites among the growers of the Imperial Valley. **Pkt., 8c; oz., 20c; 1/4 lb., 60c.**

Bender's Surprise. 90 days. Fruits thick, oval, weighing about 7 lbs. Netted and ribbed. Skin hard, greenish yellow. Flesh bright salmon, delicious. **Pkt., 8c; oz., 20c; 1/4 lb., 60c.**

Hearts of Gold (Hoodoo). 90 days. Nearly round fruit (about 3 lbs.), ribbed, deep green covered with netting. Flesh very thick, deep salmon. Juicy and tender. **Pkt., 8c; oz., 20c; 1/4 lb., 60c.**

Orange Cream (Osage). 95 days. For home and market gardens. Not a good shipper. Fruits oval, weighing about 5 1/2 lbs. Dark green, deeply ribbed. Flesh exceptionally thick, orange-salmon. **Pkt., 8c; oz., 20c; 1/4 lb., 60c.**

Honey Dew. 112 days. Oval in shape, good size with a smooth lemon-tinted skin. Keeps well. Thick, green-tinted cream flesh has a delicious flavor all its own. **Pkt., 8c; oz., 20c; 1/4 lb., 65c.**

Emerald Gem. 85 days. Popular for home gardens, although it does not keep well. Outer color emerald-green yellowing at maturity. Flesh thick, deep rich salmon color, sweet spicy flavor. **Pkt., 8c; oz., 20c; 1/4 lb., 60c.**

Rocky Ford. 92 days. The leading green-fleshed Melon. Fruit is rather small, almost round. The thick flesh has a delicious flavor. Ships well. **Pkt., 8c; oz., 20c; 1/4 lb., 60c.**

Knight's Early. 82 days. Flesh juicy, medium green, shading to pink at the center. Skin deep green maturing to golden yellow. **Pkt., 8c; oz., 20c; 1/4 lb., 60c.**

Lake Champlain. 80 days. Skin pale green, flesh salmon-orange, medium sweet, well flavored. One of the earliest orange-fleshed varieties, suitable for home garden or local market. **Pkt., 8c; oz., 20c; 1/4 lb., 60c.**

WATERMELON

Plant seed when weather is quite warm, 6 to 8 seeds to a hill. Cover one-half inch deep.

D. S. C. Extra Early. (Harris or Cole's Early.) 75 days. Early, productive variety, very suitable for home gardens in the north. Fruits medium sized, short oval with alternate dark and light green stripes. Flesh pink-red. Weight about 20 lbs. **Pkt., 8c; oz., 15c; 1/4 lb., 40c; 1/2 lb., \$1.25.**

Golden Honey. 85 days. Fruits chunky, nearly round, medium light green with darker stripes; rind brittle. Flesh amber-yellow. **Pkt., 8c; oz., 15c; 1/4 lb., 40c.**

Irish Gray. 95 days. Splendid for shipping. Large oblong shape with a tough rind. Light grayish green in color. Flesh very bright red and firm. **Pkt., 8c; oz., 15c; 1/4 lb., 40c.**

Kleckley Sweets or Sugar Boy. (Monte Cristo.) 85 days. Large long cylindrical fruits weighing about 30 lbs. Skin dark bluish green with thin rind. Flesh bright red, tender and extremely sweet. An excellent sort for home gardens but does not ship well. **Pkt., 8c; oz., 15c; 1/4 lb., 40c.**

Stone Mountain. 90 days. An early Melon that ships well. Large and round with deep red flesh of delicious flavor. Weighs about 35 lbs. **Pkt., 8c; oz., 15c; 1/4 lb., 40c.**

Tom Watson. 95 days. Best of shipping Melons, large (35-40 lbs.), long and cylindrical. Skin dark green with fine veining. Flesh dark red and firm. **Pkt., 8c; oz., 20c; 1/4 lb., 40c.**

Halbert Honey. 82 days. Similar to Kleckley Sweets but smaller. Smooth dark green rind and bright red flesh. Fine home variety. **Pkt., 8c; oz., 15c; 1/4 lb., 40c.**

Citron, Green Seeded. 90 days. Small round fruits which are used for preserving. Flesh white. Very productive. **Pkt., 8c; oz., 20c.**

Watermelon, Kleckley Sweet

ONIONS

Sow in rich, well-drained soil early in the spring, covering half an inch deep. When large enough thin out.

White Silverskin (White Portugal). 100 days. The most widely used white Onion. Fine for every purpose, sets, pickling, green bunching and storage. Bulbs medium sized, thick, flat, clear white, hard, fine grained and of pleasing flavor. Very dependable. Pkt., 10c; oz., 50c; $\frac{1}{4}$ lb., \$1.25.

Australian Brown. 100 days. Noted for its long keeping quality. Lemon-yellow flesh and chestnut-brown scale color. Bulbs flat, semi-globular in shape. Pkt., 10c; oz., 50c; $\frac{1}{4}$ lb., \$1.25.

Ebenezer. 100 days. An excellent kind for producing sets which keep well. Bulbs deep, flat, of medium size. Dark yellow and very firm. Sets when planted mature early for Onions for market. Pkt., 10c; oz., 50c; $\frac{1}{4}$ lb., \$1.75.

Large Red Wethersfield. 100 days. Old standard variety which keeps very well. Medium large, flat on the bottom with sloping top; purplish red with firm flesh. Pkt., 10c; oz., 50c; $\frac{1}{4}$ lb., \$1.75.

Riverside Sweet Spanish. 110 days. One of the largest and sweetest Onions grown and a good keeper. The monstrous bulbs are light yellow and globe shaped. Flesh white, fine grained and so sweet and mild that it can be eaten raw. Especially fine for salads. Pkt., 10c; oz., 75c.

Prizetaker. 105 days. An excellent keeper, finest flavor, handsome shape and enormous size. Single onions grown from seeds have weighed as high as 5 lbs. Small neck, bright straw color and very solid with pure white flesh. Pkt., 10c; oz., 75c.

Yellow Globe Danvers. 110 days. One of the most extensively used main crop Onions for the home garden and market. The bulbs are of medium to large size, uniformly globe shaped, with small neck, and ripen very evenly. The skin is rich yellow. The flesh is creamy white, crisp and of excellent flavor. The variety keeps well and is excellent for shipping, is an immense cropper often averaging 900 bushels per acre. Pkt., 10c; oz., 50c; $\frac{1}{4}$ lb., \$1.75.

Southport Yellow Globe. 115 days. A standard main crop Onion of deep globe shape and excellent color. Medium sized, rich yellow. Flesh white with creamy tone. Mild delicious flavor. Pkt., 10c; oz., 50c; $\frac{1}{4}$ lb., \$1.75.

Southport Red Globe. 110 days. The finest of the red Onions. Bulbs perfectly round, of good size with small neck and thick, deep purplish red skin. Flesh white, tinged with pink, of strong flavor. Produces and keeps well. Pkt., 10c; oz., 50c; $\frac{1}{4}$ lb., \$1.75.

Southport White Globe. 110 days. The most popular white Onion with good keeping qualities. Bulbs round, medium sized, pure white; skin thin and delicate; flesh waxy white, fine grained and mild. Keeps well. Pkt., 10c; oz., 75c.

Okra, White Velvet

Onion, Southport White Globe

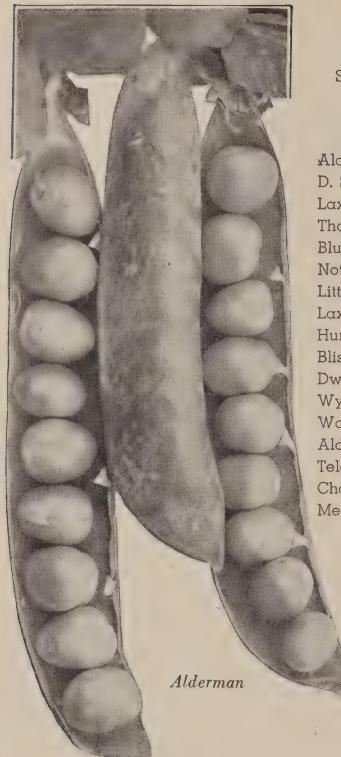

Onion, White Silverskin is a Leading Variety for Bunching

OKRA or GUMBO

Sow in rows after ground is warm about an inch deep. Thin out. Okra is used in soups and stews.

White Velvet. 58 days. The best and earliest white Okra. Plant grows about 5 feet tall and the pods are long, smooth and tender. Pkt., 6c; oz., 12c; $\frac{1}{4}$ lb., 25c.

Perkins Mammoth Pod. 65 days. Strong grower attaining a height of 6 feet. Bush is literally covered with pods 4 to 6 inches long. Color intense green; quality excellent. Pkt., 6c; oz., 12c; $\frac{1}{4}$ lb., 25c.

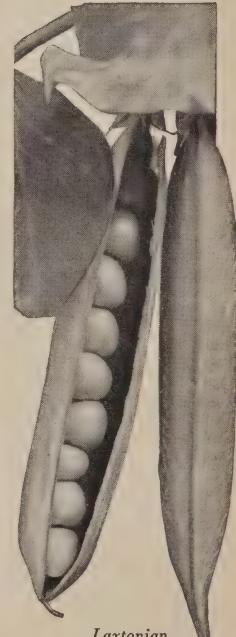

PEAS

Sow in early spring in drills 1 to 2 inches deep. Support taller varieties.
Chart Showing Relative Height and Days to Maturity

Variety	Height of Plant in Inches	Days
Alaska	28	57
D. S. C. Extra Early	30	58
Laxton's Superb	16	61
Thomas Laxton	36	62
Blue Bantam or Laxtonian	18	63
Nott's Excelsior	16	62
Little Marvel	18	64
Laxton's Progress	16	62
Hundredfold	20	64
Bliss Everbearing	28	76

Wyoming Wonder	24	76
World's Record	26	57
Alderman	60	74
Telephone	48	75
Champion of England	50	80
Melting Sugar	54	74

Alaska. Wilt resistant, early, smooth seeded variety. Pods are single, blunt, light green, round, straight, about 2½ inches long, usually containing 6 to 8 peas of good quality. ¼ lb., 12c; lb., 40c; 3 lbs., \$1.10.

D. S. C. Extra Early. A hardy wilt-resistant sort which can be planted early. Pods single, light green, blunt and plump, containing 6 to 7 peas. Smooth seed. ¼ lb., 12c; lb., 40c; 3 lbs., \$1.10.

Laxton's Superb (Early Bird). The earliest large-podded, dwarf sort. Pods curved, pointed, medium green, containing 9 to 10 peas. Pods about 4 inches long. ¼ lb., 12c; lb., 40c; 3 lbs., \$1.10.

Thomas Laxton. Excellent for home and market gardens, shipping, canning and freezing. Plant deep green and medium heavy. Pods rich, deep green, plump, broad and blunt, contain 7 to 8 large, tender peas of fine quality. ¼ lb., 12c; lb., 40c; 3 lbs. for \$1.10.

Laxtonian or Blue Bantam. Dark green pods averaging 3¾ inches long, containing 8 to 9 large peas. Pods broad, dark green, slightly curved and pointed. ¼ lb., 12c; lb., 40c; 3 lbs., \$1.10.

Nott's Excelsior. Similar to American Wonder. Pods round, plump, light green, well filled with medium-sized tender peas. ¼ lb., 12c; lb., 40c; 3 lbs., \$1.10.

Little Marvel. Wonderfully prolific variety producing dark green peas of fine quality. Pods are about 3 inches long, each containing 6 to 8 peas. ¼ lb., 13c; lb., 40c; 3 lbs., \$1.10.

Laxton's Progress. Largest and one of the best of the medium early dwarf varieties. Pods 4 to 4½ inches long, deep green, filled with 7 to 9 dark green peas of good quality. ¼ lb., 12c; lb., 40c; 3 lbs., \$1.10.

Hundredfold. Stout dark green plants with pods 4¼ inches long, containing about 8 peas of excellent quality. One of the most attractive large-podded sorts. ¼ lb., 12c; lb., 40c; 3 lbs., \$1.10.

Bliss Everbearing. A long bearing variety for home and market garden. Wilt-resistant. Plant dark green, thick and branching. Pods double, light green, plump, blunt, straight, contain 4 to 5 large peas of sweet marrowy flavor. $\frac{1}{4}$ lb., 12c; lb., 40c; 3 lbs., \$1.10.

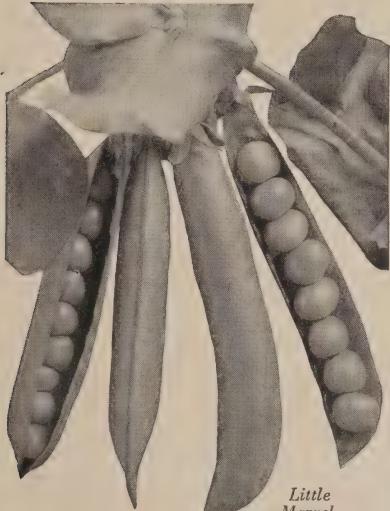

Dwarf Bountiful (Dwarf Telephone). Popular wilt-resistant variety of the Telephone type but dwarf. Attractive broad pods $4\frac{1}{2}$ inches long, containing 8 to 10 peas. $\frac{1}{4}$ lb., 12c; lb., 40c; 13 lbs., \$1.10.

Wyoming Wonder. An extra large podded, wilt resistant, late variety used for main crop. Pods $4\frac{1}{2}$ to $5\frac{1}{2}$ inches long are dark green and contain 8 to 10 large sweet peas. $\frac{1}{4}$ lb., 12c; lb., 40c; 3 lbs., \$1.10.

World's Record. Of Gradus type but earlier. Pods contain 7 to 8 large peas of good quality. Excellent for home garden and first early market. $\frac{1}{4}$ lb., 12c; lb., 40c; 3 lbs., \$1.10.

Alderman. A handsome large-podded, wilt resistant variety. Heavy yielder. Pods are pointed, $4\frac{1}{2}$ to $5\frac{1}{2}$ inches long and contain 8 to 10 large peas. $\frac{1}{4}$ lb., 12c; lb., 40c; 3 lbs., \$1.10.

Telephone. The most popular late variety. Pods $4\frac{1}{2}$ to $5\frac{1}{2}$ inches long, are straight, dark green and tapered. Produce immense crops. $\frac{1}{4}$ lb., 12c; lb., 40c; 3 lbs., \$1.10.

Be sure to inoculate this seed with **LEGUME-AID**.

Garden-size packet treats 5 lbs. seed. Pkt., 10c.

Champion of England. An old favorite variety for home gardens. 3-inch pods containing about 7 peas. $\frac{1}{4}$ lb., 12c; lb., 40c; 3 lbs., \$1.10.

Melting Sugar. The best of the edible-podded sorts. Wilt-resistant. Pods single, broad, blunt, brittle, fleshy, stringless, free from fiber and of good quality. Cook as you would String Beans. $\frac{1}{4}$ lb., 12c; lb., 40c; 3 lbs., \$1.10.

Laxton's Progress

PARSNIPS

For best results the soil should be loosened for a depth of 10 inches. Sow before May 15th as they need a long season to mature. Roots may be left in the ground all winter.

Hollow Crown. 130 days. Oldest and best known variety, roots being 8 to 10 inches long. Pure white, smooth, of excellent flavor, hollow crowned, uniformly tapered. Pkt., 8c; oz., 15c; $\frac{1}{4}$ lb., 50c.

All American. 125 days. This newer variety is in great demand because of its white, smooth appearance. Roots are somewhat more slender than Hollow Crown and remarkably free from side roots. Pkt., 10c; oz., 20c; $\frac{1}{4}$ lb., 60c.

Parsnips

EVER GREEN Garden SPRAY

Highly concentrated, odorless. Pyrethrum contains insecticidal oil for control of aphids, leaf hoppers, and many other soft-bodied insects. Easy to use. Does not harm tender plants.

One ounce makes 6 gallons of spray for aphids.

1 oz., 35c; 6 ozs., \$1.00.

Pepper, Harris' Early Giant

PARSLEY

Sow about half an inch deep in shallow drills in early spring. Soaking the seed a few hours in lukewarm water facilitates germination. Used for garnishing and seasoning.

Moss Curled (Triple Curled). Compact plant with dark bright green leaves, finely cut and curled. Grows about 8 inches high. Pkt., 8c; oz., 15c.

Turnip-Rooted Hamburg. Foliage like Parsley but forms thick, fleshy edible roots like Parsnip. Used for flavoring soups and stews. May be stored for winter. Pkt., 8c; oz., 15c.

PEPPERS

Sow seed about half an inch deep in hotbed in March. Transplant after danger of frost. Number of days refers from time of setting plants to maturity.

Sunnybrook (Sweet Cheese). 75 days. A prolific Pepper of tomato shape with scarlet skin. Grows in clusters of 4 to 5 on bushy plants. Flesh very thick, sweet and mild. Pkt., 7c; ½ oz., 25c; oz., 45c.

Harris' Early Giant. 63 days. A large sweet Pepper that will produce crops in the north, maturing earlier than other large peppers. Plants strong and vigorous and loaded from top to bottom with large fruits, so large that 45 will fill a bushel crate. Fruit deep green turning to brilliant red. Flesh thick and of a very sweet pleasant flavor. Fine variety for home use or market. Pkt., 10c; ½ oz., 25c; oz., 45c.

Mammoth Ruby King, 68 days. Plants medium size, erect and productive. Fruits borne off the ground, are 3-lobed, tapered and smooth. Dark green turning to bright red. Flesh thick, sweet and mild. Fine peppers for salads and stuffing. Pkt., 7c; ½ oz., 25c; oz., 45c.

Chinese Giant. 80 days. This grand Pepper is not only the largest, but it is also of the finest quality, being especially desirable for stuffing, green pepper hash, salads, etc. Plants strong, stocky, erect, bushy growth, about 2 feet tall. Fruit of enormous size, almost square. Flesh thick, solid and of excellent quality. Pkt., 7c; ½ oz., 25c; oz., 45c.

California Wonder. 75 days. Strong upright plants which are very prolific. Fruits are very blocky, generally four-lobed, smooth, uniform deep green, changing to bright crimson. Thick walls make the Pepper heavier and firmer than some kinds. Pkt., 7c; ½ oz., 25c; oz., 45c.

Large Bell or Bull Nose. 64 days. An early prolific sort with small erect plant. Fruits blunt, largely four-lobed; flesh deep green changing to scarlet-red. Pkt., 7c; ½ oz., 25c; oz., 45c.

Long Red Cayenne. 70 days. A favorite hot variety used for canning, pickles and drying. Plants large and productive. Fruits tapering; deep green changing to brilliant red. Pkt., 7c; ½ oz., 25c; oz., 45c.

Perfection Pimiento. 73 days. Fruits heart shaped, pendent, very smooth, dark green flesh which changes to bright crimson. Flesh exceptionally thick, sweet and mild. Very prolific. Fine for canning. Pkt., 7c; ½ oz., 25c; oz., 45c.

MIXED

Our own mixture of all Peppers listed above, made up for those who would like to try a few of each kind. Pkt., 7c; ½ oz., 25c; oz., 45c.

PUMPKIN

Plant in hills 8 feet apart.

Sugar or Pie. Favorite pie pumpkin, small, deep yellow, ribbed and slightly flattened at the ends. Good thick, sweet flesh for pies. Produces in quantity, as many as 6 to 8 pumpkins on a vine. Pkt., 6c; oz., 12c; ¼ lb., 40c.

Japanese Pie. A high quality crookneck Pumpkin of Japanese origin. The flesh is very thick, of a rich salmon color, fine grained, dry and sweet. Seed cavity small. Of medium size, early, very productive, and a good keeper. Highly desirable as a pie or cooking Pumpkin. Pkt., 6c; oz., 12c; ¼ lb., 40c.

King of the Mammoth. Largest of all Pumpkins. Slightly ribbed of flattened, globular shape. Light yellow skin and deep, coarse, orange flesh. Pkt., 6c; oz., 12c; ¼ lb., 40c.

Large Yellow (Connecticut Field). The Pumpkin most extensively used for feeding stock; also for making pies. Grows to a large size and varies in shape from nearly round or slightly flattened to quite long. Often planted with Corn. Pkt., 6c; oz., 12c; ¼ lb., 25c.

RADISHES

Sow in the open ground as soon as the soil can be worked.

Early Bird. 20 days. Very early, quick growing Radish. Its strikingly rich scarlet color attracts attention everywhere while the flesh is snow-white, always crisp, juicy and mild. Slightly elongated globe shaped. Pkt., 6c; oz., 12c; 1/4 lb., 25c.

Saxa. 22 days. This variety is gaining favor because of its earliness and short top. Root is globe shaped and bright scarlet. Fine for forcing or outdoor crop. Pkt., 6c; oz., 12c; 1/4 lb., 25c.

Sparkler. 26 days. Roots round, smooth, dull scarlet-red, one-third white at the bottom; flesh white, crisp and tender. Pkt., 6c; oz., 12c; 1/4 lb., 25c.

Early Scarlet Globe. 23 days. Roots slightly olive shaped and are a rich, bright scarlet in color. The flesh is white and tender. The roots are fit to pull early, but are larger when matured. We especially recommend this to gardeners as a first early forcing Radish. Pkt., 6c; oz., 12c; 1/4 lb., 25c.

White-Tipped Scarlet Turnip. 26 days. Roots nearly round, with small tap root; carmine-red with small white tip; flesh white, crisp and mild. Pkt., 6c; oz., 12c; 1/4 lb., 25c.

Crimson Giant. 28 days. Roots large, globular, 1 to 1 1/2 inches in diameter, deep crimson in color. The white flesh holds its firmness well and is of superior quality. Pkt., 6c; oz., 12c; 1/4 lb., 25c.

Long Brightest Scarlet. 26 days. Earliest of the long forcing types. Long, tapering, with crisp white flesh. Dark scarlet with white at the tip. Tops small. 5 to 6 inches long. Pkt., 6c; oz., 12c; 1/4 lb., 25c.

French Breakfast. 25 days. A splendid half-long variety of medium size, crisp and tender, of a beautiful scarlet color with a white tip. One of the best and most popular Radishes grown, attractive olive-shaped with delicately flavored flesh, free from bitterness or coarseness. Fine table sort. Pkt., 6c; oz., 12c; 1/4 lb., 25c.

White Icicle. 27 days. Long white waxy roots 6 to 7 inches long and tapering. Brittle and of mild flavor. Remains good for some time. Pkt., 6c; oz., 12c; 1/4 lb., 25c.

Mixed. Mixture of all the varieties listed above. Splendid assortment. Oz., 12c; 1/4 lb., 25c.

Winter Radishes

Sow in early August covering half an inch deep. For winter use, store in a cool cellar, packing them in damp sand.

Chinese Rose. 52 days. Roots 4 to 6 inches long, 2 inches in diameter, cylindrical. Blunt, smooth, bright rose-red in color, flesh white and firm. Pkt., 6c; oz., 20c; 1/4 lb., 35c.

Chinese White. 60 days. Roots 8 inches long with heavy shoulder. Flesh white, crisp and mild in flavor. Pkt., 6c; oz., 20c; 1/4 lb., 35c.

Early Bird Radish

White Icicle Radish

SPINACH

Sow about 1 inch deep in good rich ground which is free from acid.

Bloomsdale Long Standing. 42 days. Plants large, uniform, erect and sturdy, with very attractive, highly crumpled and blistered dark green leaves. Tender and of good quality. Does not go to seed quickly. Pkt., 6c; oz., 10c; 1/4 lb., 25c.

Giant Nobel. 45 days. Plants large, vigorous and spreading, slow to form seed stalks and an extremely heavy yielder. Leaves large, thick, smooth, pointed, with rounded tip. Medium green and tender. Pkt., 6c; oz., 10c; 1/4 lb., 25c.

Virginia Bright Resistant. 39 days. Large deep green crumpled leaves which are resistant to blight. It will go to seed quickly in hot weather so is used principally for fall planting. A rapidly maturing strain, which resists cold. Pkt., 6c; oz., 10c; 1/4 lb., 25c.

New Zealand Spinach. 70 days. Not a true Spinach but a kind that thrives in hot weather. A large branching, spreading plant with small thick, pointed, deep green leaves which can be picked repeatedly throughout the season. Pkt., 10c; oz., 30c; 1/4 lb., 70c.

Mustard-Spinach. This combines flavor of mustard and spinach. Grows quickly. Leaves oblong, thick, fairly smooth, dark green with lighter green ribs; slow to seed; resistant to heat and drought. Pkt., 6c; oz., 10c; 1/4 lb., 25c.

Rhubarb

Victoria. May be grown from seed, producing crop in two years. A vigorous sort for main crop with upstanding thick red stalks of excellent quality. Splendid for pies and sauce. Pkt., 6c; 1/2 oz.; oz., 18c.

Salsify

Mammoth Sandwich Island (Vegetable Oyster). A winter vegetable which should be sown early. May be left in ground or stored in a pit. This variety has long fleshy roots which store well. When used in soups it gives a flavor similar to oysters. Pkt., 7c; oz., 15c; 1/4 lb., 50c.

Summer Squash

Crookneck Squash

Plant 8 to 10 seeds to hill as soon as ground is warm, thinning to three strongest plants. Hills 4 to 6 feet apart.

Golden Summer Crookneck. 52 days. The standard summer Squash known better and grown more than any other. Bushy plants, very productive. A few hills will supply a family. Yellow with a crooked neck. Desirable either boiled or fried the same as oysters. Pkt., 7c; oz., 15c; $\frac{1}{4}$ lb., 45c.

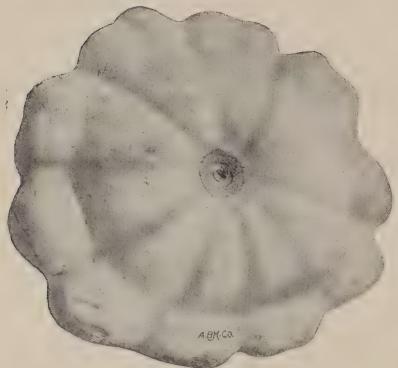

Golden Summer Straightneck. The Straightneck is the same quality and similar in every way to Crookneck except in shape which is straight. Easier to pack or peel. Pkt., 7c; oz., 15c; $\frac{1}{4}$ lb., 45c.

Cocozelle. 65 days. Of the Italian Marrow type. Fruits grow to 20 inches long, weight 4 lbs. Cylindrical, straight, smooth, dark green with lighter green stripes. Flesh firm, greenish white. Very early and prolific. Pkt., 7c; oz., 15c; $\frac{1}{4}$ lb., 45c.

White Bush Scallop (Patty Pan). 52 days. Fruits pale green when young, becoming white as they grow to 2½ lbs. Shaped somewhat like a round pie or patty with scalloped edges. Pkt., 7c; oz., 15c; $\frac{1}{4}$ lb., 45c.

Winter Squash

Sow about July 1st, thinning to 3 plants in a hill. When harvesting, be careful not to break or bruise the stems.

White Bush Scallop

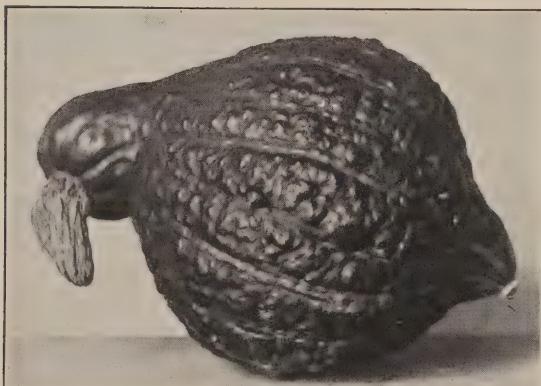

Table Queen or Acorn. 58 days. This Squash is also known as Des Moines. It is similar to an acorn in shape and of a size sufficient for cutting in the middle and serving to two persons after it is baked. The quality is better than that of most winter squashes. It is a good winter keeper. Vines vigorous and so productive that an ordinary hill will produce 15 to 30 perfect fruits of a deep green color. Pkt., 7c; oz., 15c; $\frac{1}{4}$ lb., 45c.

Banana. 105 days. Cylindrical and pointed at the blossom end, with thin slate-gray rind. Flesh thick, fine grained, yellowish orange and of fine flavor. Yields heavily and keeps well. Pkt., 7c; oz., 15c; $\frac{1}{4}$ lb., 45c.

Delicious. Green. 102 days. Top-shaped fruits weighing 7 to 8 lbs. Skin dark green with light green stripes. Flesh orange, dry and of good flavor. Keeps well. Pkt., 7c; oz., 15c; $\frac{1}{4}$ lb., 45c.

Improved Green Hubbard. 105 days. Standard winter sort. Fruits 10 to 12 lbs., pointed at both ends, slightly warted, dark bronze-green in color. Rind hard and tough; flesh very thick, orange-yellow, dry and sweet. Pkt., 7c; oz., 15c; $\frac{1}{4}$ lb., 45c.

Hard Shell Warty Hubbard. 110 days. A little larger than Improved Hubbard and more thickly covered with warts. Fruits about 14 lbs., dark green, hard shell. Flesh orange-yellow, dry and sweet. Pkt., 7c; oz., 15c; $\frac{1}{4}$ lb., 45c.

Hubbard Squash

\$1.00 Garden

If you want a good sized garden and a variety of all the standard vegetables you will probably find our **Dollar Garden** just what you need. 32 FULL SIZE PACKETS, \$1.00.

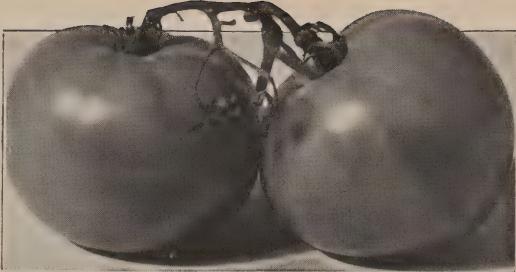

Table Queen or Acorn Squash

TOMATOES

Sow seed early in house or hotbeds. Transplant to open ground when all danger of frost is over. 1 oz. will produce about 3,000 plants. Number of days indicates the time from setting out plants to production of marketable fruits.

Break o' Day. 70 days. An early market strain which is resistant to wilt. Plants light, of open spreading habit with medium foliage; early and very prolific. Fruit medium large, orange-red, uniform, globe shaped and smooth. Pkt., 8c; $\frac{1}{2}$ oz., 20c; oz., 35c; $\frac{1}{4}$ lb., \$1.25.

Tomato, Break o' Day

Rutgers. (Certified.) 86 days. Introduced by the New Jersey Experiment Station. Plants large and robust, fruit medium to large, somewhat similar to Marglobe. Seed cavity small, color a fine red clear through. Medium early, unsurpassed for market, table use or canning. Pkt., 8c; $\frac{1}{2}$ oz., 20c; oz., 35c; $\frac{1}{4}$ lb., \$1.25.

Marglobe. 77 days. Widely used, main crop variety. Plants vigorous with heavy foliage, wilt resistant. Fruits medium large, nearly globular, deep red, smooth, solid with thick walls and cross sections of fine quality. Pkt., 8c; $\frac{1}{2}$ oz., 20c; oz., 35c; $\frac{1}{4}$ lb., \$1.25.

Oxheart. 90 days. Plant open, spreading and moderately productive. Fruits large, heart shaped, somewhat rough, pink; very solid, meaty and of fine flavor. Pkt., 10c; $\frac{1}{2}$ oz., 35c; oz., 60c.

Oxheart Tomato

Earliana. 66 days. Standard early variety, valuable for short seasons. Plant medium small with finely cut foliage. Fruits flattened, medium size, firm bright red, quite smooth. Pkt., 8c; $\frac{1}{2}$ oz., 20c; oz., 35c; $\frac{1}{4}$ lb., \$1.25.

June Pink. (Pink Earliana.) 69 days. Earliest of the pink-fruited varieties. Plant open, spreading, rather short. Fruit of medium size, flattened, smooth; color, purplish pink. Pkt., 8c; $\frac{1}{2}$ oz., 20c; oz., 35c; $\frac{1}{4}$ lb., \$1.25.

Chalk's Early Jewel. 74 days. A second early sort. Plant medium size and prolific. Fruits medium large, smooth, scarlet, flattened globe shaped. Pkt., 8c; $\frac{1}{2}$ oz., 20c; oz., 35c; $\frac{1}{4}$ lb., \$1.25.

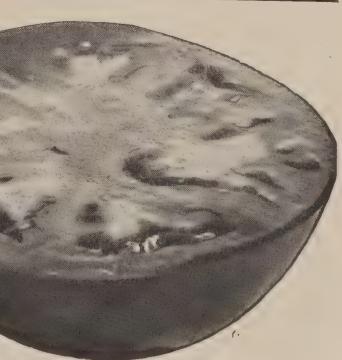

Pritchard. (Scarlet Topper.) 76 days. Plants self-topping and wilt resistant. Fruits globular with thick walls; color light scarlet. Heavy producer. Pkt., 8c; $\frac{1}{2}$ oz., 20c; oz., 35c; $\frac{1}{4}$ lb., \$1.25.

**Red Arrow
Garden Spray**

"America's FIRST Aid to Gardens"

Kills Mexican Bean Beetles, Aphids, Rose Bugs, Aster and Dahlia Beetles, Cabbage and Tomato Worms, Japanese Beetles, Ants in lawns and gardens; Thrips, Leaf Hoppers and many other varieties of chewing and sucking insects. Safe, leaves no poison residue, effective and economical. Prices: 1 oz., 35c; 4 ozs., \$1.00.

Pritchard Tomato

TOMATOES

Greater
Baltimore

John Baer

Pear Tomato

Cherry, Pear and Plum Tomatoes

Cherries, Pears and Plums have been given this name because they embrace a species of small fruiting tomatoes which resemble these fruits. Vines are loaded with these fruits, which are of the best possible quality. Fine for preserving.

Pkt., 8c; ½ oz., 20c; oz., 35c.

John Baer. 70 days. One of the most reliable kinds for home or market. Plants of medium height. Fruits solid, deep red all through, are produced in clusters. Medium walls and small core. Pkt., 8c; ½ oz., 20c; oz., 35c; ¼ lb., \$1.25.

Deposit Big Dwarf (Dwarf Champion). 86 days. Desirable where space is limited. Plants of dwarf tree type with dark green leaves. Fruits medium, smooth, solid, pink in color, globular, flattened. Pkt., 8c; ½ oz., 20c; oz., 35c.

Bonnie Best. 73 days. Standard second early sort. Fruit bright scarlet and of excellent quality. Tomatoes good size. Color extends up to the stem without any green tinge. Pkt., 8c; ½ oz., 20c; oz., 35c.

Greater Baltimore. 82 days. One of the best varieties for canning. Fruits flat, medium large, deep scarlet, solid and firm. Vines large, bushy and spreading. Pkt., 8c; ½ oz., 20c; oz., 35c; ¼ lb., \$1.25.

Ponderosa. 88 days. A very large, flat, late variety for home gardens. Fruits purplish pink, somewhat rough with tendency to crack. Inviting flavor. Pkt., 8c; ½ oz., 20c; oz., 35c; ¼ lb., \$1.25.

Yellow Ponderosa. 89 days. Similar to Ponderosa but deep yellow in color. Very mild flavored. Wilt resistant. Pkt., 8c; ½ oz., 20c; oz., 35c; ¼ lb., \$1.25.

Golden Colossal (Golden Queen). 84 days. A leading large yellow variety. Flattened globe shape. Fruits large, deep golden yellow. Smooth, solid and of mild flavor. Pkt., 8c; ½ oz., 20c; oz., 35c; ¼ lb., \$1.25.

Beefsteak (Matchless). 83 days. A reliable midseason sort, good for canning. Plants heavy in growth and very productive. Fruits large, thick, flat, smooth, bright cardinal-red. Pkt., 8c; ½ oz., 20c; oz., 35c; ¼ lb., \$1.25.

Livingston's Globe. 82 days. Its shape is notably distinct, being a perfect globe, thus rendering it possible to secure more slices from each fruit. Fruit large size, always smooth. Very firm fleshed, with few seeds, ripens evenly. Color a very fine glossy rose, tinged with purple. Flavor is extremely delicate and agreeable and the plants are extremely productive, being loaded throughout the season. Pkt., 8c; ½ oz., 20c; oz., 35c; ¼ lb., \$1.25.

Yellow Oxheart. 88 days. The Yellow Oxheart is similar to the Red except color which is a beautiful golden yellow. The massive fruits average nearly 2 lbs. each and are of very fine quality. Pkt., 10c; ½ oz., 35c; oz., 60c.

Improved Stone. 86 days. One of the largest and most solid main crop or late bright red varieties. It is unsurpassed for slicing and canning. The vines are large, vigorous and very productive. The fruits are bright deep scarlet, oval and very deep, exceptionally smooth and uniform in size. Pkt., 8c; ½ oz., 20c; oz., 35c; ¼ lb., \$1.25.

Mixed Tomatoes

An assortment of all listed varieties for the home garden. Splendid variety. Pkt., 8c; ½ oz., 20c; oz., 35c.

DEPOSIT SEED COMPANY

TURNIPS

Sow early varieties in April in drills, covering seed one-half inch. For fall and winter crops, sow in July or August.

Early Snowball. 40 days. An early sort for home and market gardening. Tops are small and erect. Roots medium sized, round, white throughout, crisp, sweet and tender. Pkt., 10c; oz., 20c; $\frac{1}{4}$ lb., 50c.

Strap Leaf Purple Top. 46 days. Medium early and very productive. Tops medium small, upright and compact. Roots flat, purple-red at the top, white below, flesh white, fine grained and tender. Pkt., 10c; oz., 20c; $\frac{1}{4}$ lb., 50c.

Purple Top White Globe. 57 days. This excellent table variety is globular in shape, of good size and very attractive appearance. The flesh is white, fine grained and tender. The roots when in best condition for table are about 3 inches in diameter, can be grown much larger for stock feeding. This sort keeps well for so early a variety and is one of the best for home use and is a fine market sort. Pkt., 10c; oz., 20c; $\frac{1}{4}$ lb., 50c.

White Cowhorn. 70 days. Tops large with deeply cut leaves. Roots white with light green shoulder, one-third out of ground, 9 to 10 inches long, tapering. A sweet tender variety for table use and a heavy yielder for stock at full maturity. Pkt., 10c; oz., 20c; $\frac{1}{4}$ lb., 50c.

Rutabaga or Swede Turnip

D. S. C. Purple Top (American Purple Top). 90 days. A large, handsome, globe-shaped sort with rich, yellow flesh. The top skin is purple, the bottom white. It is one of the best and smoothest growers, making a large bulb, which sells well and keeps in good condition all winter. Pkt., 10c; oz., 25c; $\frac{1}{4}$ lb., 75c.

Golden Neckless. 84 days. Resembles D. S. C. Purple Top but is smaller, with medium top and very small neck. Roots flattened globe in shape, yellow with purple top; flesh yellow, firm and of excellent quality. Pkt., 10c; oz., 25c; $\frac{1}{4}$ lb., 75c.

Bangholm. 90 days. Roots very large, spherical, yellow with purple crown, somewhat rough; grows one-half above the ground. Flesh light yellow, firm, of good flavor. Pkt., 10c; oz., 25c; $\frac{1}{4}$ lb., 75c.

White Sweet (Sweet German). 90 days. An excellent keeper and very desirable either for the table or for stock. The tops are small. The roots are large, nearly globe shaped; color white with a shade of green at the top. The flesh is white, very firm and sweet. Pkt., 10c; oz., 25c; $\frac{1}{4}$ lb., 75c.

DANDELION

Thick-Leaved

The most popular variety; plant upright, forms a 20-inch rosette of large, broad leaves. Leaves are thick and easily blanched. Pkt., 10c; oz., 50c.

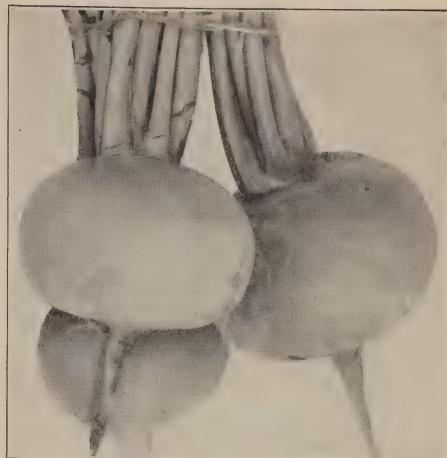

TOBACCO

Connecticut Seed Leaf

This strain has an attractive leaf of choice texture and delightful flavor. It ripens uniformly and is considered a very desirable variety for cigars. A favorite with many cigar manufacturers and growers. Pkt., 10c; $\frac{1}{2}$ oz., 35c; oz., 60c.

SUNFLOWER

Sunflowers are now recognized as a valuable crop, the seed especially being rich in oil and food quality. When sown with ensilage Corn and cut, it supplies food which Corn lacks to make a balanced ration for food. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 20c; lb., 50c.

Turnip, Early Snowball

Rutabaga,
D. S. C. Purple Top

MIXED TURNIP

A mixture of all varieties of Turnip and Rutabaga for those who wish to try a few of each. Pkt., 10c; oz., 20c; $\frac{1}{4}$ lb., 50c.

KILL PLANT INSECTS!

Ever Green Garden Spray is deadly to many common types of sucking and chewing garden insects. Non-poisonous when sprayed.

EVER GREEN Garden SPRAY

Plant Foods, Sprays and Novelties

FLORALIFE

This amazing new product will prevent wilting of roses in a warm room and will prolong life of snapdragons, carnations, chrysanthemums and other cut flowers. When Floralife is used you need not change water nor cut stems daily. For an interesting comparison, place several blooms in a separate vase of plain water and watch the difference after several days.

Package 10c. Ready for instant use. Makes 1 quart of solution.

THE EASY WAY . . . Simply dilute with water in accordance with directions and spray, hitting the insects to be controlled. Deadly to many common varieties of both chewing and sucking insects. Mixes readily with any kind of water. 1 oz., 35c; 6 ozs., \$1.00.

TOPZOL

NON-POISONOUS

RAT AND MOUSE KILLER

Guaranteed to Kill Rats and Mice
Guaranteed to Kill Nothing Else

Harmless to men, domestic animals, poultry chicks, poultry, dogs or cats. But kills rats, mice, ticks, fleas, etc.

TOPZOL contains no deadly poison and can be used with assured safety around the home, barn, poultry house, warehouse or any rat- or mouse-infested building. 2-oz. can, 50c.

FULTON'S PLANTABBS ARE SAFE

convenient plant food in concentrated, easy-to-use TABLET form and provides the elements needed by plants and flowers for vigorous growth and abundant blooms; also provides the necessary amount of Vitamin B₁. Every Tablet is a FULL MEAL of rich, stimulating food. Gives amazing results on potted plants, flowers and vegetables. Will not burn even the tenderest foliage.

Box of 12 Tablets 10c.

Box of 90 Tablets 50c.

Box of 36 Tablets 25c.

Box of 240 Tablets \$1.00.

Can of 2 Pounds \$2.75.

CRO-TOX BIRD AND RODENT REPELLENT

CROWS SHUN IT
PHEASANTS HATE IT

Saves Seed Loss and Replanting

One can is sufficient for 1 bushel of corn. Put corn in a pan, pail or other container and stir until a little touches each kernel and no animal will pull or eat it. Does not clog in the planter. Corn germinates and grows better when treated with this.

One can, enough to treat one bushel of corn, for 60c, by mail.

RED ARROW GARDEN SPRAY

"A Garden Necessity"

After investing time and money in the development of your garden, protect it from insect invasion with Red Arrow Garden Spray. Kills many varieties of both chewing and sucking insects. The only insecticide most home gardeners require. Safe, effective and economical. Ask for free leaflet.

Prices: 1 oz., 35c; 4 ozs., \$1.00.

DEPOSIT SEED COMPANY

FLOWER SEEDS

Symbols used:

(a) Annual	(p) Perennial
(b) Biennial	(ra) Rock garden annual
(c) Climber	(rp) Rock garden perennial
(gr) Greenhouse plant	(e) Everlasting

Please order flower seeds by the number placed before each variety.

Abronia

1. (Sand verbena) (ra) *umbellata*. Rosy lilac, verbena-like flowers. Quick growing, trailing, succulent plant which will thrive in dry, poor soil in a sunny location. Pkt., 6c.

Achillea

2. The Pearl (Milfoil) (p). Many clusters of small, double white flowers from June to September. Fine for cutting. Pkt., 7c.

Acroclinium

3. Giant Double Mixed (ed). Daisy-like flower with silky petals which is popular for winter bouquets. Pastel shades. Pkt., 8c.

Adlumia

4. Cirrhosa (Allegheny Vine) (c). One of the prettiest and most delicate climbers covering a lattice or porch in a very short time. Foliage resembles Maidenhair Fern. Flowers are like Bleeding Heart. Pkt., 8c.

Adonis

5. Aestivalis (Pheasant Eye) (a). Early blooming annual with deep crimson flowers and feathery foliage. About 1 foot tall. Pkt., 6c.

Agathaea

6. Coelestis (Blue Daisy) (a). A lovely well-branched border plant bearing a profusion of bright sky-blue cineraria-like flowers during the summer. Height about 18 inches. Pkt., 8c.

Ageratum

- (Floss Flower) (a). Summer-blooming plant producing fluffy flowers in dense heads. Dwarf varieties are desirable for borders, edgings, rock gardens and beds. The taller sorts are fine for beds and cutting.

7. Dwarf Mixed. Dwarf sorts which grow to an even height. Therefore these are especially adapted for bordering, etc. Pkt., 5c.

8. Tall Mixed. Fine for cutting and work requiring longer stems. Pkt., 5c.

9. Blue Perfection. Compact bushy sorts which make a mound of deep blue. Very useful for borders, hedges, etc. Pkt., 5c.

10. Blue Bell. Very dwarf and compact, and much prized where known for edging low beds, also for filling in spaces in rock gardens. Pkt., 7c.

11. Blue Cap. Extra dwarf and compact. Free bloomer, can be had in flower from June till frosts and always looks well. For a solid dwarf blue border it has no equal. Pkt., 10c.

Agrostemma

12. Coronaria (Mullein Pink) (p). Foliage silvery white. Flowers freely produced, are crimson, rose and white. Flowers first season if sown early. Pkt., 6c.

Alyssum

- (a). For a continuous solid bed of white, or for a border or edging, Alyssum has no equal. Commences to bloom in a few weeks from sowing and is a solid mass of white till hard freezing weather.

13. Sweet. Fragrant. Covers more space than others, each plant making 2 feet of space while all summer. Frag ant flowers.

14. Little Gem. Very dwarf compact sort. 6 inches high. A mass of white.

15. Lilac Queen. Very similar to Sweet Alyssum except color which is a lavender-lilac.

16. Procumbens or Floral Spray. Also called Carpet of Snow. Plants trailing, forming a solid rosette of white a foot across. Plants send up hundreds of sprays.

17. Cream King. Similar to the white except color which is a creamy yellow.

18. New Miniature. An extremely small dwarf variety especially valuable for a low compact border or for rock gardens. Pure white.

Pkt. of any variety, 5c; 1 pkt. of each of 6 Annual Alyssums, 25c.

19. Saxatile compactum (Basket of Gold) (p). A dwarf Alyssum for rock gardens or edgings. Deep yellow flowers produced in large clusters. Foliage thick, silvery gray. Height 3/4 foot. Blooms in May and June. Pkt., 8c.

Amaranthus

- (a). Tall, vigorous, ornamental foliage plants, with showy flower clusters. Sunny location desirable. Give plenty of room.

20. Molten Fire. Beautiful poinsettia-like top. Showy in border. Pkt., 10c.

21. Mixed. Plants 2 to 6 feet high. Various forms mostly with pretty colored foliage. Also includes such plants as "Love-Lies-Bleeding," "Joseph's Coat." Pkt., 6c.

Ammobium

22. Alatum (e). Pretty everlasting which when picked and dried, retains its beauty for years. White. Pkt., 8c.

Achillea, The Pearl

Anemone, St. Brigid

Ageratum, Blue Cap

Rustproof Snapdragon

Ameria Formosa

Anchusa

23. **Blue Bird** (a). A fine blue plant with dwarf compact habits. Its trusses of vivid indigo-blue Forget-me-not-like flowers are fine in the garden or for cut flowers. Pkt., 8c.
24. **Lissodel** (p). Similar to the popular "Dropmore" variety but flowers are larger and of a deeper and more intense gentian-blue. Of sturdy habit and free bloomer. Pkt., 10c.
25. **Italica** (p). Dropmore variety. Forms a branched plant 3 to 5 feet high, each branch terminating in a spike of bright blue. Pkt., 10c.

Anemone (Windflower) (p).

31. **Caen Hybrids** (Poppy Anemones). Large variety of beautiful plants blooming mostly in the spring. Start seed in the shade. Pkt., 10c.
32. **St. Brigid**. Seeds saved from special strains of the finest double sorts. Colors brilliant and almost endless in variety. Pkt., 10c.

Anthemis (Yellow Marguerite) (p).

33. **Kelwayi**. Very hardy and desirable. Produces Daisy-like flowers of a golden yellow all summer. Showy and works well in bouquets. Pkt., 5c.
34. **Art Shades**. New shades in this abundant flowering perennial. Pkt., 8c.

Antirrhinum or Snapdragons (a)

Snapdragons are among the most desirable flowers for summer blooming. Although perennials in the south, they do well when grown as annuals in the north. Spring-sown seeds produce flowering plants by July, which continue to bloom in increasing profusion until frost. They are magnificent for flower arrangements.

35. **University of California Rustproof Mixture**. A fine mixture highly resistant to the rust-disease. Pkt., 10c.
36. **Giant Rustproof Mixed**. These are the tallest and largest flowered of all Snapdragons. Colors are superb; yellow, pink, red, white and bronze. Each plant produces several spikes, set with these immense beautifully formed flowers. Pkt., 10c.
37. **Pink Shades Rustproof**. A fine mixture of rustproof varieties in the shades of pink. Pkt., 10c.
38. **Majestic Mixed**. Plants of this are compact and bushy, 18 to 24 inches high, and bear many massive Hyacinth-like spikes closely set with large flowers. Sturdy, upright and strong. Does not need staking. Large variety of splendid colors. Pkt., 10c.
39. **Bedding Mixed**. Dwarf compact varieties in wide range of colors. Grow 18 to 24 inches high and branch to produce several spikes of bloom. Come into bloom by July or August. Pkt., 8c.

Florists' Favorites

The following sorts are favorites of florists for winter blooming but are equally well adapted for growing in the garden in summer. Semi-tall.

40. **Afterglow**. Rich golden bronze, produces long strong stocky spikes.
41. **Cheviot Maid Supreme**. One of the most desirable. Early clear pink with markings.
42. **Prima Donna**. Buff-pink with white throat.
43. **Geneva Pink**. A good florist's variety with long sturdy stems. Clear pure rose-pink.
44. **Ceylon Court**. Beautiful early canary-yellow. Blossoms closely set on strong wiry stems.
45. **Jennie Schneider**. Handsome pink-shaded salmon. Same shade as Columbia Rose.
46. **White Rock**. Beautifully formed, free blooming, pure white. Best white Snapdragon to date.

47. **Nelrose, Improved**. One of the most popular silver-pink varieties. A good forcer.

48. **Philadelphia Pink**. A very popular free blooming pure pink.

49. **Golden Monarch**. An intense deep golden yellow.

50. **Rose Queen**. A delightful soft rose.

51. **Cottage Maid**. Very bright pink with white throat.

- Above Florists' Favorites** 8c a pkt.; 4 pkts., 25c; the 12 for 55c.

52. **Giant Mixed**. These grow 2 to 3 feet tall outdoors. The upper 10 to 12 inches are thickly studded with gorgeous blooms of large size and exquisite color. Pkt., 10c.

53. **Large Flowering Mixed**. A grand mixture of large flowering Snapdragons in brilliant colors. Pkt., 5c.

54. **Rock Garden Hybrids Snapdragons**. A special new extra dwarf strain suitable for rock gardens. Also beautiful for low borders or edgings. Pkt., 10c.

Arabis (Rock Cress) (p)

55. **Alpina**. One of the earliest plants to bloom. Grows about 6 inches high and completely covers the ground with a carpet of white flowers. Fragrant, useful in borders or rock gardens. Pkt., 8c.

56. **Rock Rose**. A beautiful pink form of the hardy Alpine Rock Cress. One of the prettiest rock garden plants. It is a mass of pink flowers early in the spring. 8 inches high. Pkt., 8c.

Arctotis

61. **Grandis** (Blue-Eyed African Daisy) (a). Easily grown. Plants make a strong robust growth about two feet tall, and are most attractive on account of their silvery white, deeply cut foliage. The Daisy-like flowers measure 2½ inches across. They are glistening white with sky-blue eye surrounded by a narrow yellow zone. Pkt., 6c; 2 pkts., 10c.

Armeria

62. **Formosa** (Thrift or Sea Pink) (p). Dwarf compact perennial suitable for rock garden. Clover-like, rose-colored flowers on stiff, wiry stems 1½ to 2 feet high. Blooms in May and June. Pkt., 10c.

ASPARAGUS FERNS (gr)

63. *Sprengeri* (Emerald Feather Fern). Trailing ornamental house plant with needle-like leaves on long branches. Fine for hanging baskets. Grows readily from seeds soaked in warm water. Pkt., 10c.
64. *Plumosa nana* (Lace Fern). Finely divided, rich, deep green lace-like foliage. Useful for cutting and florist work as well as attractive as a house plant. Pkt., 10c.

Asperula

65. *Aurea setosa* (Blue Woodruff) (a). Quick-flowering annuals blooming freely during June and July. Flowers borne in neat little clusters, funnel-shaped, and of a bright, rich azure-blue color. Pkt., 8c.

Asters

From midsummer until frost, the annual Asters with their double and single flowers of many distinct types and wide range of colors are outstanding in gardens and for cut flowers. Wherever possible, we furnish the wilt-resistant strains which are highly immune to wilt disease.

SUPER GIANTS

This is the largest and most fully double Aster class known. The flowers are from 6 to 8 inches across with full petalled, graceful interlacing petals. Plants are about 2½ feet tall with 6 to 8 long stems to a plant.

66. *Los Angeles*. Color a soft shell-pink. Pkt., 10c.
67. *El Monte*. Color deep glowing crimson. Pkt., 10c.

PRINCESS

A very attractive new cutting type of wilt-resistant Aster, 2 to 2½ feet tall, branching and free flowering, early blooming, bearing quantities of 3- to 3½-inch flowers on strong stems. Flowers have a full deep crested center, surrounded by several rows of dainty plumelike guard petals.

68. *Anne*. A beautiful peach-blossom shade. Pkt., 10c.
69. *Bonnie*. A soft salmon-rose. Pkt., 10c.

70. *Golden Sheaf*. Yellow. Pkt., 10c.

71. *Marsha*. Rich cinabar-scarlet. Pkt., 10c.

One packet of each of the Princess type Asters for 35c.

72. *Heart of France*. This is a deep pure rich blood-red Aster, deepening with age. Its rich color, large size and beautiful form always command attention. One of the most admired. Wilt-proof. Pkt., 10c.

Eight Fine Mixtures

73. *Giant Fringed Single*. These giant curled and fringed single Asters are beautiful and showy. Fine for bouquets and sell readily in the market.

74. *California Giant Sunshine*. A new race of Asters growing 3 feet high and bearing blossoms 4 to 6 inches across on long stiff stems. The color is startlingly beautiful. A dual tone effect is produced through the contrasting tints of the dislike center and the outer or guard petals. They vary in shades of Enchantress pink, appleblossom, deep rose, blue and lavender, but the disc, sometimes light yellow, sometimes blue, brings additional variety in tint. Mixed colors.

75. *Mammoth Peony Flowered*. These new improved Giant Mammoth Peony-Flowered Asters somewhat resemble the late Beauty Type with massive incurved flowers. Blossoms almost round and produced on long stems. Fine for cutting or shipping.

76. *Tall Ostrich Mixed*. This new wilt-proof strain resembles the Japanese Tassel Asters with their long showy ostrich type blossoms. Very free flowering and one of the best of the curly Asters.

77. *King Asters Mixed*. A magnificent class of Asters, distinct from all others. The long, narrow petals are folded lengthwise, appearing almost as though quilled. The flowers are of great size and substance and last longer when cut than those of almost any other class. The plants are large and the stems exceptionally long and strong. All are strikingly handsome and fold petals like a Cactus Dahlia.

78. *Giant Comet or Late Express Mixed*. These have very large fluffy flowers with twisted petals and somewhat resemble Chrysanthemums. Wilt-proof.

79. *July Queens Mixed*. These, while not so large and showy as some late varieties, are fair size, double, and produced on long stems. They will bloom before late sorts bud. Fine for early use. Wilt-proof.

80. *California Giant Mixed*. There has been a popular demand for a large long Cane or Ostrich Feather Aster with the long stems of the late Beauty Type. This demand is now supplied in the California Giants. Flowers are larger and more substantial than the Crego, measuring 3 to 6 inches in diameter.

Any of above mixtures: Pkt., 8c; 1 pkt. of each of 8 for 50c.

Aster, Princess Bonnie

Crego Giant Asters

Improved Crego Asters are the largest and finest of the Comet and Curled Asters. Plants grow about 2 feet high, branch and produce long stems surmounted by large curled blossoms in all colors.

81. *Crego Royal Rose*. Loveliest deep rose color imaginable. Fully double with curled and twisted petals. Robust grower, branching to tree form. 2½ feet high. Wilt-resisting.

82. *Crego Crimson*. Large deep crimson flowers 4 to 5 inches across. Wilt proof.

83. *Crego Purple*. Fine purple. Wilt-proof.

84. *Crego White*. Fine large white.

85. *Crego Lavender*.

86. *Crego Mixed*. All varieties mixed.

Any Crego Aster: Pkt., 8c; collection of 6 for 40c.

87. *Japanese Tassel Mixed*. The Japanese Tassel Asters comprise one of the most beautiful of the comet or twisted class. Blossoms large, petals curled, twisted and incurred in the most beautiful and fascinating manner. These large, showy blossoms are produced in abundance on long stems and are especially useful for cutting. Pkt., 8c.

American Beauty

American Beauty Asters are larger and later than Autumn Beauty, coming into flower late and remaining in bloom till hard frosts. They branch freely and produce large incurved blossoms on long stems.

88. *Purple Beauty*. Large perfect flower of a rich purple.

89. *Peach Blossom*. A delicate color that everybody loves.

90. *Peerless Pink*. A shell-pink.

91. *Crimson*. Deep crimson.

92. *White*. Large, full, pure.

93. *Finest Mixed*. Above and other American Beauty varieties mixed.

Any of the above American Beauty Asters: 8c a pkt.; 1 pkt. of each of the 6 for 40c.

94. *Astermons*. The Astermons are so named because they are a fancied cross between Aster and Chrysanthemums. They grow 18 to 24 inches high and each stem is a perfect bouquet of large, graciously curved flowers. This race of Asters is very popular, where known. Mixed colors, pkt., 8c.

95. *Royal Invincible*. Follows the July Queens. They are large, full and double with petals incurving in center similar to Autumn Beauties. They are continuous bloomers and no Aster can take their place in late July. Wide range of colors in our mixture. Free from Aster Wilt. Pkt., 8c.

96. *Autumn Beauty Asters*. Our Autumn Beauty Asters come into bloom in autumn ahead of Chrysanthemums. Blossoms large, full and double, slightly incurved petals and usually with a beautiful twist in center. They are borne on long stems and have no superiors for cutting or bouquets. Mixed. Pkt., 8c.

97. *Single Giants of California*. Single Giants of California are now quite popular. Flowers very large, Daisy like, on stems 18 to 24 inches long. Showy cut flower. Pkt., 8c.

98. *All Varieties of Asters Mixed*. Wilt-resisting strains. This mixture is grown by a California grower who has over 100 acres of Asters and grows all the wilt-resistant strains. Hundreds of varieties. Large pkt., 10c.

Balsam, Bush Flowered

Aubrieta

105. Mixed (Rainbow Rock Cress) (rp). Fine dwarf spreading plant for borders, rock gardens and dry walls. Masses of rosy purple, blue and lilac blooms during April and May. 6 inches tall. Pkt. 10c.

Auricula

106. Mixed (p). A choice mixture of the hardy Alpine Auriculas or Primroses. About 6 inches tall, they bloom during April and May in many bright colors, including orange, copper-brown and other pastel shades. Pkt. 10c.

Cardiospermum

107. (Balloon Vine) (c). Pretty annual vine growing to a height of 10 feet. Small white flowers followed by balloon-shaped seed pods. Pkt. 8c.

Balsam (Lady Slipper) (a)

The Improved Double Balsams are among the showiest flowers for a bed by themselves or for single specimens. They form little treelike plants 2 feet high and are loaded with flowers until frost. Not desirable as a cut flower.

108. Royal Camellia Mixed. Blossoms mostly blotched and spotted in beautiful shape. Pkt. 8c.

109. Royal Rose Mixed. Mostly solid color flowers. Resemble small Roses. Pkt. 8c.

110. Royal Show Mixed. All colors of the finest double Balsams in splendid mixture. Pkt. 8c.

111. Bush Flowered Mixed. Different from others and very showy. Blossoms come out on top of stem and almost smother the foliage. Pkt. 10c.

Bartonia

112. Aurea (Blazing Star) (a). A very attractive annual growing about 2 feet high with golden yellow blooms. Pkt. 10c.

Bellis (Double English Daisy) (p)

Splendid dwarf early flowering biennial for beds, borders and rock gardens.

113. Tubulosa Mixed. Magnificent large flowering strain in colors red, rose and white. Petals folded and quilled very attractively.

114. Snowball. Fine double white.

115. Longfellow. Double dark rosy red.

116. Giant Mixed. A fine collection of all giant Daisy or Bellis mixed. All Bellis: 10c a pkt., 4 for 35c.

Begonia (gr)

One of our best known house plants. Bears large quantities of lovely flowers of waxlike texture and in many soft and exquisite shades. Seeds very fine, but with proper care will grow and bloom in 6 to 8 months.

117. Vernon. Blossoms a bright rich orange-carmine; produced in greatest profusion. Foliage a rich red.

118. Prim Donna. Pretty rose shading to carmine.

119. Tuberous-Rooted Begonia. Finest mixture of these grand summer bloomers.

120. Perpetual-Flowering Begonia. A large class which blooms freely and continuously.

Pkt. of any Begonias, 10c.

Baptisia

121. Australis (False Indigo) (p). Strong growing plant 2 to 3 feet high with deeply cut, bluish green foliage and spikes of dark blue peacock flowers produced throughout June and July. Pkt. 8c.

Bocconia

122. Cordata (Plume Poppy) (p). A noble hardy perennial with large, glaucous leaves and tall flower stems with terminal panicles of white flowers. Useful for planting as a background in large beds. July, August. 4 to 8 ft. Pkt. 8c.

Browallia

123. Mixed (a). Large deep blue flowers. Suited for hanging baskets, vases and beds. Fine for pot blooming in winter. Pkt. 10c.

Calceolaria

124. Giant Mixed (Pouch Flower) (gr). Peculiar pouch-like flowers of various colors, many of which are attractively tigered, blotched, spotted and laced in a most unique manner. A fine house plant, blooming in late winter and early spring. Pkt. 15c.

Calendula

(Pot Marigold) (a). These old-fashioned flowers are very popular at present. They make a wonderful show as bedding plants, blooming all summer and fall. May be used for winter blooming in greenhouses. Calendulas are of easy culture. Sow any time in spring or early summer in ordinary well drained soil.

125. Orange Sunshine. A new sort of the chrysanthemum-flowered type. A companion to Chrysanthus or Sunshine. A deep orange. A superior cut flower.

126. Chrysanthus or Sunshine. Golden canary-yellow blooms with long, broad, gracefully curved outer petals and incurved center petals. Long stems.

127. Compere or Sensation. Handsome double rich orange with a crimson sheen. Very showy, might be termed Picotee.

128. Apricot. Bright apricot color deepening toward the brown-eyed center. Very attractive.

129. New Art Shades. These art or pastel shades are new shades of apricot, cream, white, orange or lemon. The flower types vary as well as the colors. All suitable for bedding or cut flowers.

Calendula

130. Orange King. Large, showy, brilliant orange with dark center.

131. Ball's Improved Orange. Splendid florists' variety with rich orange flowers.

132. Ball's Golden. Long stems, very double, deep golden color.

133. Finest Double Mixed. All colors.

All Calendulas 8c per pkt. One packet of each of the above Calendulas for 60c.

Calliopsis

Showy and beautiful free flowering annuals of the easiest culture, doing well in any sunny position, blooming all summer and excellent for cutting and massing. It is best to sow them where they are to bloom, thinning out to stand 6 to 8 inches apart. Colors mostly shades of yellow and maroon.

- 134. **Golden Wave.** Rich, golden yellow with brown centers. Flowers borne on long, wiry stems. Fine for bouquets. Pkt., 5c.
- 135. **Coronata.** Excellent cut flowers, long, wiry stems; yellow shading to old gold. Pkt., 5c.
- 136. **Dwarf Crimson King.** One of the best new Calliopsis. Wonderfully free bloomer and unsurpassed for beds and mass effects. Pkt., 6c; 2 pkts., 10c.
- 137. **Fine Mixed.** Fine for beds or massing. Mixed colors. Double and single. Pkt., 5c.

Campanula

ANNUAL CANTERBURY BELL

The Annual Canterbury Bell resembles the biennial. However, seed sown in February or March will bloom by July or August. Plants grow 2 to 3 feet tall, sending up 6 to 8 strong stems loaded with beautiful bell-shaped blossoms from summer till frost.

- 138. **Mission Bells** is a new color in Canterbury Bells—a beautiful clear, soft pink color. The spike is large and most attractive.
- 139. **Angelus Bells** is an art shade of deep rose. A very distinct and charming color.
- 140. **Liberty Bell** is an intense violet-blue. Flowers large and attractive. Each plant throws up 6 to 8 spikes.
- 141. **Wedding Bells** is a new pure white annual Canterbury Bell.
- 142. **Mixed Annual Canterbury Bells.** A mixture of all the annual Canterbury Bells.

Per pkt., any sort, 8c.

One pkt. each of the five Annual Canterbury Bells for 35c.

BIENNIAL CANTERBURY BELL

The Canterbury Bells are one of the most prized of garden flowers. They form a branching plant 2 to 3 feet high and are loaded for a long time with large bell-shaped flowers about the size of a lady's thimble.

- 143. **Cup and Saucer.** Very showy blossoms resemble a cup and saucer. Pkt., 8c.
- 144. **Show Mixed.** Double and single Canterbury Bells mixed. Pkt., 8c.

HARDY CAMPANULAS

- 145. **Carpathica** (Carpathian Harebell). Charming bright blue, cup-shaped flowers; in bloom all summer; splendid for rockeries and edgings. 9 inches. Pkt., 8c.
- 146. **Persicifolia, Blue** (Peach Bells). Stately spikes, 4 feet tall, with immense blue, bell-shaped flowers. Pkt., 10c.
- 147. **Pyramidalis** (Chimney Bellflower). A stately variety, forming a perfect pyramid 4 to 6 feet high, crowded with large, bell-shaped, blue flowers. August, September. Pkt., 5c.
- 148. **Speculum** (Venus Looking Glass) (a). Pretty, hardy annual, with 5-lobed, blue flowers. Good for edgings. Blooms in early summer. 9 inches high. Pkt., 5c.

Candytuft (a)

Very showy little flower blooming in a few weeks from sowing seed. Fine for beds, borders or edging.

- 157. **Little Prince.** One of the most charming varieties we ever saw. Grows only about 8 inches high and is unexcelled for a border or row. Pure white. Pkt., 5c; 4 pkts., 15c.

- 158. **Rose Cardinal.** One of the most desirable. Rich rose-cardinal color. Pkt., 5c.

- 159. **Border Hybrids.** Beautiful dwarf varieties of Candytuft in mixture, fine for beds and especially used for borders and edgings. Pkt., 5c; 3 pkts., 12c.

- 160. **Mixed Candytuft.** All varieties and colors in annual Candytuft. Blooms in 4 to 6 weeks after sowing and is excellent for borders, beds or cutting. Pkt., 5c.

Hardy Candytuft

Hardy evergreen plants, making a magnificent showing the second year from seed. They bloom very early, cushioning rock ledges, borders, etc., with banks of bloom. Sow outdoors in spring or fall in any sunny place. 6 to 10 inches high.

- 161. **Sempervirens.** A profuse white-blooming, hardy perennial, coming in flower early in the spring, much used for rockeries, etc. Pkt., 10c.

- 162. **Gibraltarica.** Evergreen Candytuft. Handsome, pure white flowers, tinted rose-pink. Splendid for rockeries and natural plantings. Pkt., 8c.

Carnation (p)

Universal favorite, both with the amateur and florists. The best double sorts of today are unexcelled in their various colorings and remarkable beauty, to which is added delightful fragrance. Nearly all come double from seed.

- 164. **Marguerite Mixed.** The most popular class. Blooms in four months from seed. Fine for outdoor or house. Many colors. Pkt., 10c.

- 165. **Giant Chabaud.** Large, double, clove-scented, deeply fringed blooms grown in five or six months from seed sowing. Flowers borne on sturdy stems 15 inches long. Pkt., 15c.

- 166. **Double Dwarf Vienna.** Large, double blooms in a full range of colors. Grows about 1 foot tall. Pkt., 10c.

Celosia Cristata

(Coxcomb) (a). Flower heads of this type of Celosia resemble a rooster's comb. They look and feel like velvet or chenille.

- 168. **Tall Royal Velvet.** Rich carmine-crimson, foliage bronze-green, reddish margins. Pkt., 10c.

- 169. **President Thiers.** Dark crimson Coxcomb with green foliage. Grows about 12 inches tall. Pkt., 10c.

Show Mixed Canterbury Bells

Campanula Persicifolia

Celosia Plumosa

(a). Colorful plants with long silky plumes. Fine for beds or bouquets.

- 170. **Magnificent Feathers.** All varieties of these Celosias are rich and dazzling in color effect. Pkt., 8c.

- 171. **Crimson Plumes.** Glowing crimson-scarlet. Pkt., 8c.

- 172. **Pride of Castle Gould.** Plants grow compact and pyramidal and produce immense flower heads, resembling willow plumes in many remarkable shades. Pkt., 10c.

Celosia Childsi

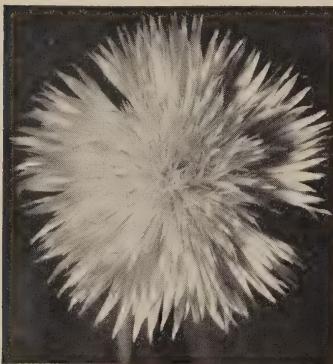

(Chinese Woolflower) (a). Plants about 2½ feet high, branch freely and produce large globular, purplish crimson flowers which resemble a ball of brilliantly colored wool. None of the blooms fade in any way until hit by frost, but all continue to expand and glow with deepening richness of color.

- 173. **Crimson.** A dark crimson-scarlet color. Pkt., 10c.

- 174. **Mixed.** Includes yellow, pink, crimson, white and scarlet. Pkt., 10c.

Centaurea Cyanus, Jubilee Gem

Centaurea Imperialis

Annual Chrysanthemums

Centaurea Cyanus

- (Bachelor's Button or Cornflower) (a). Easy to grow and bloom continuously.
175. **Jubilee Gem.** Dwarf, compact plants, double dark blue flowers. Fine for edgings or rock gardens as it grows only 1 foot tall.
 176. **Lilac Lady.** Bright lilac-mauve. Also dwarf, compact plants only a foot tall.
 177. **Blue Boy.** A new deep blue Bachelor Button, full and double. Desirable for cut flowers. Grows 2 feet tall.
 178. **Red Boy.** The best red to date and a fine companion for Blue Boy. Double and an attractive color.
 179. **Pinkie.** Lovely light pink.
 180. **Snow Man.** Pure glistening snow-white.
 181. **Double Mixed.** A blend of named varieties.

Bachelor Buttons, 8c per pkt.
One packet of each of the seven varieties for 50c.

Centaurea

182. **Imperialis** (Giant Sweet Sultan) (a). The giant long-stemmed, sweet-scented flowers are exquisitely fringed. Long, strong stems. Plants grow 2½ feet tall. Many colors. Pkt., 8c.
183. **Americana** (Basket Flower) (a). Immense thistle-like blooms of rosy lavender color. Plants 3 feet tall. Pkt., 8c.
184. **Montana** (Hardy Cornflower) (p). Lovely large thistle-like, blue flowers carried on stems 2 feet long. Blooms freely from late April until the end of June and is perfectly hardy. Pkt., 10c.
185. **Gymnocarpis** (Dusty Miller) (a). The leaves of this ornamental border plant are a silvery gray and deeply cut. It contrasts finely with green foliage and is effective when mixed with other plants, especially in window boxes. Pkt., 5c.

Cerastium

186. **Tomentosum** (Snow-in-Summer) (p). Low prostrate spreading plant with attractive white foliage. It sends up many stems with clusters of white star-shaped flowers. Resembles a bed of snow. Blooms for a long period. Pkt., 7c; 2 pkts., 12c.

Cheiranthus

- (Siberian Wallflower) (rp). Usually grown as a biennial. May bloom the first year, May or June.
187. **Golden Bedder.** Plants produce many spikes 12 to 18 inches high covered with large golden yellow sweet-scented flowers. Pkt., 8c.
 188. **Allioni.** Brilliant orange-yellow flowers on stems 1 foot high. Pkt., 7c.

Chrysanthemums

- Annual. Easy to grow and bloom profusely during summer and fall.
189. **New Double Yellowstone.** Beautiful new double Chrysanthemum of large size and a pleasing light lemon color. Easily grown from seed sown in spring. Blooms by August. Pkt., 8c.
 190. **Nivelli.** A beautiful new annual Chrysanthemum with large, single, pure yellow blooms, 2 inches across. Fine long stems. 2 feet tall. Pkt., 5c.
 191. **Tricolor.** Good summer bloomers with attractively cut foliage and showy blossoms about the size of Daisies. Flowers are ringed, zoned and marked in pretty colors. Pkt., 5c; 3 pkts. for 10c.
 192. **Annual Mixed.** Great variety of colors in both double and single. Good bedding plants which bloom well in summer and fall from spring-sown seed. Pkt., 5c.
 193. **Indicum** (gr.). These are the handsome, large, twisted and curled Chrysanthemums, which florists sell in autumn. They are the most desirable of all plants for November and December, flowering in the house. Seed sown early will bloom first year. Pkt., 15c.

Cineraria

194. **Show Mixed** (gr.). One of the handsomest and most easily grown of all house plants. Seed sown in spring or early summer produces plants which commence to bloom in early winter and are loaded with flowers for a long time. Pkt., 15c.

Clarkia

- (a). Dainty double flowers resembling those of the Flowering Almond. Salmon, pink, mauve, rose, carmine, purple and white. 2 feet tall, flowering from July to October.
201. **Novelty Mixed.** New and fancy varieties in many colors. Pkt., 8c.
 202. **Double Mixed.** All colors mixed. Pkt., 5c.

Cleome

203. **Pungens** (Spider Plant) (a). Pink Queen. Shrublike plants 4 to 5 feet tall with curious flower heads of a clear soft pink at the top of each branch. Blooms from July until frost. Pkt., 10c.

Cobaea

204. **Scandens** (Cathedral Bells) (c). One of the best and most rapid growing climbers, attaining a height of 20 feet in a season. Flowers large, bell shaped, and deep violet-blue, which changes to purple-lilac. Plant seed edge down very early in house or hotbed. Do not water too much. Pkt., 6c.

205. **Double White.** A new double white flowering variety. Very pretty. Pkt., 10c.

Coix

206. (Job's Tears) (a). Beautiful grass with hanging beadlike heads. Gray ornamental seeds are often strung as beads. Pkt., 5c.

Coleus

- (gr.). Brilliantly colored foliage plants.
207. **Magnificent Mixed.** This strain is noted for richness of coloring, large beautiful leaves and quick growth. Pkt., 15c.
 208. **Rainbow Mixed.** A choice assortment in all colors of the rainbow. Pkt., 15c.

Columbine

(Honeysuckle or Aquilegia) (p). Beautiful spring blooming plants in a wonderful range of colors. Exquisitely dainty. They like partial shade.

209. Mrs. Scott Elliott's Strain. Flowers extra large and spurs extra long. Acknowledged to be the finest selection of long spurred varieties known. Pkt., 10c; 3 pkts. for 25c.

210. *Grandiflora alba*. A handsome new white Columbine with very long spurs. For forcing. Beautiful in the garden or in bouquets. Pkt., 7c.

211. *Skinneri*. Scarlet spurs, yellowish green corolla. Grows 30 inches tall. Pkt., 10c.

212. *Clematiflora*. Spurless with beautiful open flowers like Clematis. Pkt., 10c.

213. Long-Spurred Mixed. Beautiful colors and color combinations with long spurs. Pkt., 8c.

214. *Corulea* (Rocky Mountain Columbine). Violet-blue sepals and white corolla. April until July. Pkt., 10c.

Convolvulus

215. *Minor* (Dwarf Morning Glory) (a). Bushy little plants covered with Morning Glory-like blossoms during the day. Fine for beds and borders. Pkt., 6c.

Coreopsis

(Golden Wave) (p). One of the showiest of all yellow plants and one of the best for bouquets. Sure to grow and do well. Each plant produces hundreds of yellow flowers an inch or more in diameter, open on long wiry stems 2 feet long.

216. Double Sunburst. Large golden yellow, fully double flowers, early blooming. Fine for cut flower. Pkt., 10c.

217. Mountie Giant. Brilliant deep golden yellow flowers. Extra large and desirable. Pkt., 8c.

218. *Auriculiflora*. Similar to above but with an Auricula eye or dark brown disc in the center. Pkt., 8c.

219. Double. Much like the California Sunbeams except flowers have extra rows of petals. Double and Semi-Double. Pkt., 8c.

220. *California Sunbeams*. Loaded all summer with handsome golden yellow flowers on long stems. Commence to bloom in June. Pkt., 5c; 3 pkts. for 10c.

Cosmidium

221. *Orange Crown* (a). Golden yellow Calliopsis-like flowers, the lower half of each petal marked deep mahogany. Plants about 2 feet tall produce a succession of bloom all summer. Pkt., 10c.

Cosmos

(a). Showy summer and fall blooming plants with feathery foliage and abundant flowers.

SENSATION TYPE

Giant flowers 4 to 6 inches in diameter are borne within 10 weeks from seed on strong plants 4 to 6 feet tall.

222. Dazzler. A dazzling crimson.

223. Pinkie. Clean rose-pink.

224. Purple. Pure white-pink.

225. Sensation Mixed. Pink and white mixture.

Sensation Cosmos: 10c a pkt. or the 4 for 35c.

226. Early Express. Earlier and dwarfier than others. Blooms profusely in 2 months from sowing seed. Pkt., 8c; 3 pkts. for 20c.

Klondyke Cosmos

A hybrid type of yellow Cosmos.

227. Orange Ruffles. Semi-double, vivid rich orange butterfly-like blooms. Very free flowering.

228. Orange Flare. Early flowering, deep orange. Plants 3 feet tall, bloom profusely until frost.

229. Yellow Flare. Bright yellow.

Pkt. of each of the 3 for 25c; 10c a single pkt.

Early Giant Cosmos

These bloom later than Express but much earlier than the ordinary Cosmos. They produce their beautiful colors and stately splendor from July till frosts.

230. Early Giant Crimson. Crimson-red. Pkt., 5c.

231. Early Giant Rose. Delicate shell-shaded rose-pink. Pkt., 5c.

232. Early Giant White. Pure white. Pkt., 5c.

233. Early Giant Mixed. Mixed colors. Pkt., 5c.

One pkt. of each of the above Early Giant Cosmos for 15c.

New Early Double Crested or Anemone-Flowered Cosmos

Crested Cosmos is one of the most desirable plants for cut flowers. Plants similar to other Cosmos in habitus except that a good per cent have double or crested crowns which give them a very dainty and exquisite appearance.

234. White Queen. Beautiful white with full double crested center. Pkt., 10c.

235. Malmeson Pink. New early crested pink. Pkt., 10c.

236. Crimson King. Rich crimson color. Very showy. Pkt., 10c.

237. Mixed Early Crested. 4 or 5 sets in mixture. Pkt., 10c.

One packet each 4 Early Crested Cosmos, 30c.

238. Late Crested Cosmos Mixed. Similar to early but plants are larger, 5 to 7 feet tall, and bloom later. Grand plant for hedge or foliage. Pkt., 10c.

Cynoglossum

(Chinese Forget-Me-Not) (a). Graceful loose sprays of large Forget-me-not-like flowers produced throughout the summer on strong plants 18 to 24 inches tall.

243. Amabilis Blue. Turquoise-blue with lighter center. Pkt., 6c.

246. Dwarf Firmament. Dwarf bushy plants 15 inches tall covered with bright indigo-blue flowers. Pkt., 10c.

247. Amabilis Pink. Lovely bright pink blooms. Pkt., 8c.

Coreopsis, Double Sunburst

Crested Cosmos

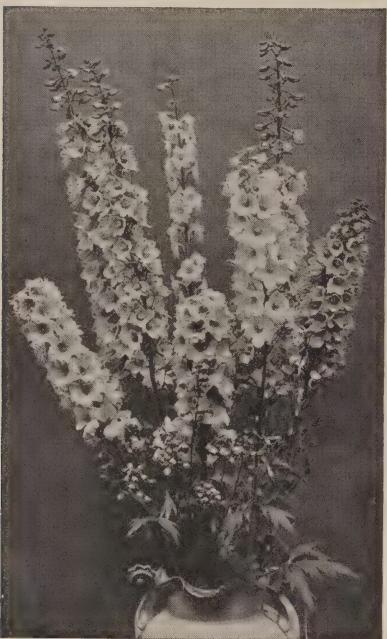

We will mail 25 packets of Different Varieties of Flower Seeds, our selection of varieties, for \$1.00.

Cardinal Climber

248. (*Ipomoea Quamoclit*) (c). Climbs to a height of 20 to 30 feet and is covered with beautiful red blossoms shaped like the Morning Glory. Leaves are deeply laciniated and are in themselves very decorative. Pkt., 10c.

Cypress Vine

249. Mixed (c). Pretty, delicate climbing annual vine, growing about 15 feet in a season. Foliage dark green and feathery, and interspersed with bright star-shaped flowers, scarlet, rose and white, which form an elegant contrast to the graceful foliage. Pkt., 6c.

Delphinium

Dianthus Pinks

Dahlia

Dahlias may be grown successfully from seed and will blossom the first season. Start seed very early in the house or outdoors and transplant as you would tomatoes. Soil should be very rich as they are good feeders and do not bloom well in poor soil. Some plants will come single from the best double seed and any not wanted may be discarded.

250. Single Mixed. A wide variety of colors in the single Dahlias. Pkt., 8c.

251. Unwin's Hybrids. A lovely free flowering class of dwarf Dahlias blooming by midsummer from seed sown in the spring. They form a pretty dense plant about 2 feet high and are loaded with double and semi-double flowers in many bright and attractive colors. Pkt., 10c; 3 pks., 25c.

252. Orchid Flowered. Petals beautifully twisted and curled. Many colors mixed. Pkt., 15c.

253. D. S. C. Double. An extra choice selection of finest double sorts. Pkt., 10c.

254. Coltness Hybrids. Very dwarf bushy plant producing single flowers in abundance. Many striking colors. Pretty for beds or borders. Pkt., 8c; 2 pks. for 15c.

Daisy

255. Tahoka (a). This plant is very easily grown, blooms early and remains in bloom until fall. Foliage is fernlike and flowers are 2 to 3 inches across. Rays are a lilac-blue and centers are yellow. A free blooming desirable cut flower growing 1½ to 2 feet high and branching freely. Pkt., 10c.

Heteropappus

256. (Blue Daisy) (a). Is one of the finest and showiest plants for late summer and autumn flowers. Plants are buried in a mass of Marguerite-like blossoms 1 to 1½ inches across which last well when cut. Color a beautiful lavender-blue with a bright yellow central disc. Pkt., 8c; 2 pks., 14c.

Daisy, Shasta

(p). Large Marguerite-like flowers produced in June and July on plants 2 to 2½ feet tall. Very hardy and easy to grow.

257. Early Conqueror. A giant-flowering Shasta Daisy which comes into bloom very early. Pkt., 8c.

258. Bell's Selected Alaska. Flowers are extremely large and graceful, with three or more rows of petals of the purest glistening whiteness, and borne on single, stiff, wiry stems nearly 2 feet long. Pkt., 10c.

Delphinium

(Hardy Larkspur) (p). The Delphinium or Hardy Larkspurs are popular and useful ornamentals both for cut flowers and florists' use. The shades of blue are unequalled by any other flowers. They grow readily in any soil from seed or division of plants. After the first blossoms are cut they send up a second crop of flowers.

259. Belladonna. Single flowers of turquoise-blue loosely arranged on tall slender spikes. Pkt., 10c.

260. Cliveden Beauty. An improved strain of Belladonna Type with beautiful showy flowers of a delicate light blue. Very desirable as a cut flower. Pkt., 15c.

261. Bellamosum. A rich deep blue in color and of the same type and habit of growth as the Belladonna. Pkt., 10c.

262. Hollyhock Strain. Magnificent race producing enormous spikes of bloom in many new and lovely shades. The flowers are very large and come in both single and double forms. The plants branch freely and continue to flower all summer. Colors range through every shade of blue to deep indigo and purple. Known also as Wrexham Hybrids. Pkt., 25c.

263. Blackmore and Langdon Hybrids. All the clear shades of blue with bees of contrasting colors. Pkt., 25c.

264. De Luxe Hybrids. The blossoms are of immense size, semi-double and double, covering the graceful, towering spikes for from 2 to 5 feet of their length. The colors range from light lavender, through every shade of blue from azure to indigo and purple, several shades being blended in some of the varieties. These are the result of breeding and improving for years. Pkt., 25c.

265. Gold Medal Hybrids. A selection of extra fine large flowering Delphiniums both in double and single. Pkt., 10c.

266. Pacific Giants Mixed. Remarkable new strain developed on the Pacific Coast. Flowers extremely large and well formed, 2½ to 3½ inches in diameter, symmetrically placed on well-balanced spikes. Comparatively mildew-resistant. Nearly 100 per cent double. Pkt., 25c.

One packet of each of the above 8 Delphiniums for \$1.00.

Delphiniums, Chinese

Flowers from June until September. May be grown as biennials but will bloom the first year from early sown seed. Lovely beds, borders or rock gardens.

267. Blue Butterfly. Deep brilliant blue. Pkt., 10c.

268. Liberty Larkspur. Dark blue. Pkt., 10c.

269. Cambridge Blue. Luminous light blue, about 2 feet tall. Pkt., 8c.

270. Rock Garden or Baby Butterfly. Very dwarf strain with bright flowers. Pkt., 10c.

Four Chinese Delphiniums for 30c.

Dianthus Pinks

Dianthus Pinks embrace a family of the richest, most uniquely colored of flowers. For variety and profuseness of bloom they have few equals. By sowing every season you can have them in bloom from early summer till frosts. Seeds sown in spring bloom by fall and live through the winter, blooming early the next summer.

271. **Oriental Beauties.** Showy class with oddly marked and striped blossoms in bright and pastel shades. Fine for small bouquets and remains in bloom a long time. Pkt., 7c; 3 pkts., 15c.
272. **Giant Chinese or Indic Pink Mixed.** Large flowering forms in many beautiful colors. Blooms in clusters. Pkt., 5c.
273. **Double Chinese.** Plants tall, 20 inches, double flowers freely produced in clusters. Pkt., 6c.
274. **Double Lacinatus.** Plants dwarf, compact, 10 to 12 inches. Blossoms large and beautifully fringed and cut. Pkt., 8c.
275. **New Lacinatus.** Double large, brilliant orange and scarlet. Pkt., 8c.
276. **Nobilis or Royal Pink.** A good, unique and showy class, with massive blossoms which interlace and cover each other. These handsomely fringed flowers are an elegant sight. Pkt., 7c.
277. **D. S. C. Mixture.** All colors and sorts which are especially desirable, in double and single. Pkt., 6c.

Seven Dianthus Pinks for 35c.

Dianthus Pinks, Hardy

(p). Brilliantly colored flowers for beds and borders. Easy to grow. Many bloom the first year.

278. **Plumarius, Single.** Fine delicate colors, finely fringed and fragrant. 18 inches tall. Pkt., 5c.
279. **Plumarius, Double.** Double and semi-double blooms in a wide range of color. Pkt., 10c.
280. **Cyclops.** Beautifully zoned and ringed blossoms, red and rose. Pkt., 8c.
281. **Cheddar Pink** (*Dianthus caesius* or Cliff Pink). Compact tufts of grayish foliage from which spring delicate pink, fragrant flowers. May and June. Pkt., 10c.
282. **Deltoides** (Maiden Pink). Pink blooms above fine feathery foliage, about 8 inches high. Pkt., 10c.

One packet of each of the Hardy Pinks, 35c.

Didiscus

283. Coerulea (Blue Lace Flower (a)). Carried on stems 2 feet long, are broad, lancelike heads composed of many delicate light blue flowers. Excellent for garden display and for cutting, bearing a profusion of flowers from June until September. Of fine upright growth. Pkt., 6c; 2 pkts., 10c.

284. **Gloxiniacæflora Mixed.** This is a fine strain of Foxglove, with handsome spotted Gloxinia-like flowers on long spikes. Pkt., 5c; 3 pkts., 10c.
285. **Monstrosa Mixed.** A class of Foxglove which are not only extra large and showy but also distinct as each spike of bloom is surmounted by one enormous flower. Pkt., 10c.
286. **The Shirley Hybrids.** 6 to 7 feet tall. The flower heads are over 3 feet long, covered with big bell-shaped blossoms. Colors range from white and shell-pink to deepest rose, many attractively dotted with crimson or chocolate. Pkt., 10c.

Dimorphotheca

287. Aurantiaca Hybrids (African Daisy (a)). Showy plant from South Africa with fine Daisy-like blooms during summer and fall. White, sulphur yellow, salmon, rose, apricot, and many other colors in this mixture. Pkt., 6c.

Dolichos

288. Mixed (Hyacinth Bean) (c). Annual climber growing rapidly to height of 10 feet with erect spikes of showy Wisteria-like blooms in purple and white. Ornamental seed pods follow blooms. Pkt., 6c.

Echinops

289. Nitro (Globe Thistle) (p). Thistle-like plants with steel-blue foliage and purple thistle-like blooms. Grows about 5 feet tall. Pkt., 8c.

Erysimum

290. Peroskianum (Fairy Wallflower) (a). Brilliant showy orange flowers growing on plants about two feet tall. Blooms for nearly two months. Pkt., 8c.

Eschscholtzia

(California Poppy) (a). Very showy annuals succeeding anywhere and giving an abundance of bright flowers. Foliage a silver-gray and finely cut. One of the most satisfactory annuals grown. Blooms from June until hard frosts. Flowers are cup shaped and mostly in rich tones of orange and yellow.

291. Ramona Hybrids. Large frilled flowers with attractive crinkled petals. Plants dwarf and compact, making it one of the finest plants for bedding. Pkt., 6c; 2 pkts., 10c.

292. New Double Art Shades. A rare mixture of double and semi-double varieties in brilliant and fascinating colors. Pkt., 10c.

293. Brilliant Mixed. Bright rare colors. Many new ones. Pkt., 6c.

294. Fancy Mixed. All the best old colors and many new ones. Pkt., 5c.

Dimorphotheca

Annual Gaillardia

Godetia, Sybil Sherwood

Helichrysum

Hollyhock, D. S. C. Double

Euphorbia

295. *Heterophylla* (Mexican Fire Plant) (a). Annual Poinsettia resembling in habit and color the beautiful hothouse Poinsettia. About midsummer the center top leaves of each branch turn orange-scarlet. Pkt., 8c.
296. *Variegata* (Snow-on-the-Mountain or Mountain Spurge), 2 feet. Remarkably distinct plant; very showy, with its foliage edged white and green. Pkt., 5c.

Lathyrus

- (Hardy Sweet Peas) (p). Climbing or trailing plant which will grow in almost any soil. Produces showy clusters of Sweet Pea-like flowers from June until September.
301. Pink Pearl. Lovely pink. Pkt., 8c.
302. White Pearl. Pure white. Pkt., 8c.
303. Red Pearl. Red. Pkt., 8c.
304. Fine Mixed. All choice sorts. Pkt., 5c.

One packet each of above Everlasting Peas for 25c.

Gaillardia

ANNUAL VARIETIES

- Grows 15 to 18 inches high and blooms throughout summer and fall.
305. *Indian Chief*. Bronze-red with mahogany-brown center. Single. Pkt., 7c.
306. *Picta Lorenziana*. Large double flowers made up of numerous tubular or quilled petals. Colors sulphur, orange, claret and maroon. Pkt., 7c.

PERENNIAL VARIETIES

- Gorgeous long-stemmed Daisy-like flowers in rich colors blooming from June until September.
307. *Grandiflora Hybrids*. Large flowers in combinations of yellow and scarlet. Pkt., 7c.
308. *Portola Hybrids*. Bronzy scarlet, heavily tipped with golden yellow. Flowers 4 inches in diameter on strong stems. Pkt., 10c.

Geraniums

- (gr). Very easily raised from seed. Will bloom the first summer and almost the year around.
309. *Ventura Mixture*. Made up of extra choice and new sorts. Pkt., 10c.
310. *Fine Mixed*. Mostly in the Zonal and Scarlet Geraniums. Pkt., 8c.

Geum

311. *Double Red* (p). Large showy double flowers valuable for cutting from June until September. Glowing red. Pkt., 10c.

Gilia

312. *Capitata Blue* (Thimble Flower) (a). Round lavender-blue flowers borne on bushy plants with fine feathery foliage. Pkt., 6c.

Gomphrena

313. (Globe Amaranth) (e). Clover-like strawy flower heads in white, pink, flesh, red and orange. May be dried for winter bouquets. Pkt., 6c.

Gloxinia

- (gr). Greenhouse perennials which produce the handsomest and richest tube or trumpet-shaped blossoms imaginable. Seeds sown in spring blossom the following winter. Endless variety of rich colors and combinations of all colors.

314. *New Giant*. Finest selected seed from Giant Flowering varieties. Pkt., 15c.
315. *Large Flowering Mixed*. Grand mixture of the largest and choicest flowering sorts. Pkt., 10c.

Godetia

- (Satin Flower) (a). Plants bushy, 1 to 2 feet high, and loaded with showy, satin-like blossoms from July till hard frosts. Many varieties and colors. Does well anywhere, especially in poor soil.
316. *Sylph Sherwood*. Bright salmon-pink edged with white. Pkt., 10c.

317. *Sweetheart*. Double, shining pink, overlaid cream. 15 inches tall. Pkt., 10c.

318. *Azalea-Flowered*. Bushy plants loaded with double pink flowers, resembles an Azalea in full bloom. Pkt., 8c.

319. *Tall Mixed*. 1½ to 2 feet tall, all colors. Pkt., 6c.

320. *Dwarf Mixed*. More compact, about 1 foot tall, single and double, all colors. Pkt., 6c.

Gourd

- (ac). Ornamental vine, the ripened fruits of which are very popular for home decoration.

321. *Dish Cloth or Sponge*. Ripened interior resembles a sponge or dishcloth and may be used as such.

322. *Calabash or Dipper*. May be hollowed out and used for a dipper.

323. *Sugar Trough*. Bottle shaped with thick durable skin.

324. *Club*. Enormous club-shaped fruits 3 to 4 feet long.

325. *Nest Egg*. Egg-shaped fruits. When dried may be used as nest eggs.

326. *Chinese Bottle*. Used by orientals as a Thermos bottle. Makes fine bird houses.

327. *Fancy Mixed*. All kinds listed and others.

Any packet of Gourd, 5c; the seven for 25c.

Gypsophila

- (Baby's Breath.) Very useful, blooming in six weeks from seed. Lends airy grace to bouquets.

ANNUAL VARIETIES

333. *Elegans*. White. Pkt., 5c.
334. *Rosa*. Beautiful rose color. Pkt., 5c.

335. *Mixed*. Mixture of white, rose and crimson. Pkt., 5c.

PERENNIAL VARIETIES

336. *Paniculata*. White. Pkt., 5c.

337. *Double Paniculata*. Double white. Pkt., 15c.

338. *Mangini*. Pink and white. Pkt., 10c.

339. *Repens*. Dwarf white for rock gardens. Pkt., 10c.

Helenium

340. *Hoopesi* (Sneezewort) (p). A delightful perennial growing 2 feet or more high, producing an abundance of rich, orange-yellow flowers from May to August. Pkt., 8c; 2 pkts., 15c.

Helianthus (Sunflower) (a).

341. *Maroon Prince*. Single, maroon color, growing to about 4 feet. Pkt., 8c.
342. *New Red*. Rich chestnut color, some tipped with yellow. 7 feet. Pkt., 6c.
343. *Chrysanthemum Flowered*. Double golden yellow flowers 4 to 5 inches across. Plants of dwarf spreading habit. 3 feet tall. Pkt., 6c.
344. *Mammoth Russian*. Immense flowers. Plants 8 feet tall. Grown for backgrounds as well as poultry feed. Pkt., 5c; oz., 10c.

Helichrysum

(Strawflower) (ae). Effective for beds and borders as well as winter bouquets. Flowers to be dried should be picked when partly opened and hung with heads downward in a cool, airy place.

345. *Goldenball*. Handsome, rich yellow.

346. *Scarlet*. Rich, vivid scarlet.

347. *Rose Queen*. Fine rose color.

348. *Violet Queen*. Dark violet.

349. *Double Mixed*. All double sorts; mixed.

Any above colors of Helichrysums. 5c a packet. The five varieties, one packet of each for 20c.

Heliotrope

350. *D. S. C. Giant Hybrids* (a). Excellent bedding plant in summer, popular as a house plant in winter. About 1½ feet tall. Delightful fragrance. Many shades, ranging from pure white to violet-blue. Pkt., 10c.

Hibiscus

(Marsh Mallow) (p). Showy shrublike plants bearing large flowers during August and September.

351. *Golden Bowl*. Deep cream petals with maroon center. 2 feet tall. Pkt., 6c.
352. *Mallow Marvels Mixed*. White, pink and red flowers of enormous size. Height 4 feet. Pkt., 6c.

Hollyhock

(p). Our fine strain of Hollyhocks produce the fullest double blossoms on dwarfer, more compact plants than the old Double Hollyhocks. Their splendid spires of bloom make a grand display in any background situation. Blooms second season from seed. Very hardy and will withstand any cold weather.

353. *Imperator*. New double Begonia-Flowered Hollyhocks. Many fine colors. Pkt., 10c.

354. *New Triumph*. New early flowering class with waved and fringed petals. Pkt., 10c.

355. *White*. Pure white. Pkt., 6c.

356. *Newport Pink*. Beautiful pink. Pkt., 6c.

357. *Deep Yellow*. Very fine. Pkt., 6c.

358. *Purple-Violet*. Pkt., 6c.

359. *Appleblossom*. Delicate pink and white. Pkt., 6c.

360. *Carmine-Rose*. Attractive. Pkt., 6c.

361. *Crimson*. Deep crimson. Pkt., 6c.

362. *D. S. C. Double*. A fine mixture of all double varieties. Many shades. Pkt., 5c.

363. *Mammoth Alleghany*. Flowers produced in abundance. 3 to 5 inches in diameter. Some double, some semi-double, all beautifully fringed or curled. Colors varied and resemble crushed silk. Pkt., 5c.

364. *Single Mixed*. Many varieties of tall single Hollyhocks. Fine for background. Pkt., 5c.

Annual Hollyhock

365. *Annual Everblooming*. Sown early in spring they bloom by August and continue till hard frost. Many choice sorts, single and double and semi-double, with very large flowers. Color range is wonderful, embracing everything from pure white to maroon. Pkt., 8c.

Hunnemania

(Tulip Poppy) (a). This bush Eschscholtzia grows about 2 feet tall and is covered with large Poppy-like flowers from July until hard frost. Seed should be sown early in May. Feathery gray-green foliage.

372. *Sunlite*. Semi-double canary-yellow blooms. Extra rows of short petals outside the Tulip-like cup. Pkt., 10c.

373. *Fumarietolia*. Golden yellow flowers with orange anthers. Pkt., 6c.

Ipomopsis

374. (Tree Cypress) (a). Bushy plants which look like a little tree about 2 feet high. Pkt., 5c.

Iris

375. *Kempferi* (Japanese Iris) (p). Easily grown from seed. Most gorgeous of all Iris. Flat, wide blooms, rich in coloring. Mixed colors. Pkt., 10c.

Kudzu Vine

376. (Jack-and-the-Bean-Stalk) (c). A beautiful climber, remarkable for its vigorous growth and handsome flowers. Blossoms are large and grow in panicles similar to Wisteria but larger. Color a pleasing shade of purple. It is a quick grower, producing dense shade and does better each succeeding year. Pkt., 6c.

Kochia

377. *Childsi* (Summer Cypress or Burning Bush) (a). A handsome hedge or border annual, growing quickly from seed. Symmetrical, oval plants 3 feet tall with feathery foliage, which turns bright red in fall. Pkt., 5c.

Giant Imperial Larkspur

Kochia

Linum Grandiflorum

Marigold, Royal Scot

Marigold, Sunset Giants

Lantana

378. Mixed (gr). A greenhouse plant used for bedding in summer. Verbena-like flowers ranging from orange to rose. Pkt., 10c.

Larkspur

(Annual Delphinium) (a). Long attractive spikes of double blooms. Will bloom from July until frost.

Giant Imperial Type

Tall, upright, compact branching from base. Spikes 4 to 5 feet long.

379. *Gloria*. A perfect flower of rich deep rose.

380. *White Spires*. Long spikes of pure white.

381. *Lavender Spires*. Delicate light lavender.

382. *Royal Purple*. Long spikes of deep violet-purple.

383. *Exquisite Rose*. Wonderful soft shade.

384. *Exquisite Rose*. Deep rose-pink.

385. *Miss California*. Sweet salmon-pink.

386. *Rosamond*. An All-American Gold Medal Selection. Pure fadeless rose. Branching with numerous long spikes laden with double flowers.

387. *Los Angeles*. One of the finest. A brilliant rose on salmon background.

388. *Carmine King*. Spikes 4 to 6 feet long; a brilliant carmine-rose color. Very showy.

389. *Giant Imperial Mixed*. Above and other varieties mixed.

All above Giant Imperial Larkspurs: 8c a packet; 1 packet each of the 11 varieties for 50c.

390. *Hyacinth-Flowered Mixed*. Earthen, compact branching type. Each plant produces one big Hyacinth-like spike, broad at the base and tapering toward the top, covered with double blooms. Pkt., 6c.

391. *Stock-Flowered Mixed*. Stately, well-branched plants producing many spikes thickly set with double blooms 3 to 4 feet tall. All colors. Pkt., 6c.

Lavatera

(Annual Mallow) (a). Plants about 2 feet tall covered with large cup-shaped flowers. Sow in May, will bloom from midsummer until frost.

392. *Splendens Mixed*. Rose and white flowers. Pkt., 6c.

393. *Sunset*. Tinted shades of the sunset. Rose-pink. Pkt., 6c.

Leptosyne

394. *Stillmanni* (Yellow Daisy). Golden yellow flowers like Daisies produced 6 weeks after sowing on plants 20 inches tall. Pkt., 8c.

Leptosiphon

395. *French Hybrids* (Threadwort) (a). Little rock garden plant about 5 inches tall covered with starlike blooms in shades of cream, yellow, carmine, brown and purple. Pkt., 6c.

Lilium

401. *Regale* (Regal Lily) (p). Long white trumpet toning down to blushing pink. A light golden orange in the throat. Delightfully perfumed. Blooms the second season from seed. Perfectly hardy. Pkt., 10c.

Linaria

(Toad Flax or Baby Snapdragon) (a). Free flowering compact plants covered with Snapdragon-like flowers. Fine for edgings and rock gardens.

402. *Fairy Bouquet*. Rich pastel shades, distinct and attractive. Pkt., 10c.

403. *Moroccana Hybrids*. Crimson, gold, pink, mauve, blue and rose, blotched with different shades. Blooms in 8 weeks from seed. Pkt., 8c.

Linum (Flowering Flax)

404. *Grandiflorum*. Plants about 12 inches tall covered with brilliant crimson flowers, which last only a day but are borne continuously until frost. An annual. Pkt., 6c.

405. *Perennial Mixed*. Every plant throws up hundreds of blue and white flowers on thin wiry stems. Blossoms appear to float in the air. Pkt., 5c.

Lobelia

(a). Low growing plants suitable for borders and hanging baskets. Long flowering season.

406. *Sapphire*. Suitable for hanging baskets as the plants will trail over the edge and produce hundreds of dark blue flowers with white eyes. Pkt., 10c.

407. *Crystal Palace*. A most attractive border plant, covered with deep azure-blue flowers. Makes a well-rounded compact growth. Pkt., 7c.

408. *Tall Mixed*. Grow to 10 inches. Suitable for bedding. Pkt., 6c.

409. *Dwarf Blue Mixed*. 4 to 6 inches tall. Fine for edgings. Pkt., 6c.

Lunaria

410. (Honesty or St. Peter's Penny) (p). Purple flowers followed by silvery seed pods which make attractive winter bouquets. A biennial but will flower the first season if sown early. Pkt., 8c.

Lupines

Magnificent plants with pea-shaped flowers in lovely colors. 411. *Giant Annual*. This giant strain of annual Lupines grows 3 to 4 feet tall, branches freely at base producing 4 to 6 strong spikes which are loaded with beautiful large flowers. Pkt., 8c; 2 pks., 15c.

PERENNIAL

412. *Sunshine*. Finest of all hardy Lupines. Bright yellow. Pkt., 10c.

413. *Excelsior Mixed*. Wide range of beautiful colors, white, pink, blue and rose. 3 feet tall. Blooms during May and June. Pkt., 10c.

Lychnis

(Campion) (p). Bright cheerful flowers for the garden. Easily grown from seed. Will bloom first year if seed is sown early.

414. *Chalcedonica* (Maltese Cross). Bright scarlet flowers in clusters, each individual blossom shaped like a maltese cross. Pkt., 8c.

415. *Haageana Hybrids*. Large blossoms in shades of pink, rose and scarlet. Blooms in June and July. Pkt., 10c.

Marigold

(*Tagetes* or *Velvet Flower*) (a). From midsummer until fall, when many other plants are past their prime, Marigolds form a wealth of color in the garden.

AFRICAN VARIETIES

- Stronger in habit and producing larger flowers than the French.
- 416. Gigantea Sunset Giants.** A sweet scented, robust growing, extremely large flowered type. Plants 2½ to 3 feet tall, flowers 5 to 6 inches across yellow and orange. Pkt., 10c.
- 417. Crown of Gold.** Collette Type. Double globe-shaped center is surrounded by a row of broad drooping petals. Golden orange, sweet scented. Pkt., 8c.
- 418. Fistulosa, Double Mixed.** Large flowering with beautifully curled and imbricated flowers in orange and lemon shades. Fine garden variety. Pkt., 6c; 2 pkts., 10c.
- 419. Lieb's Winter Flowering.** Grown for flowering in winter. Maroon and golden yellow flowers. Pkt., 10c.
- 421. Yellow Supreme.** This is a companion for Guinea Gold and was a Gold Medal Winner in the All-America Selection in 1935. Free flowering, 2½ feet high, bearing large quantities of loosely ruffled Carnation-like blossoms of a lemon-yellow color. Flowers large and showy. Pkt., 8c; 2 pkts., 15c.
- 422. Golden Emblem.** Very large double *Fistulosa* African Marigold of a rich golden yellow, a mid-shade between Lemon and Orange Ball. This is a desirable shade and a fine addition to the large flowering Marigolds. Pkt., 10c.
- 423. All Double Marigold.** The best strains of Marigolds, like many other flowers have heretofore produced many singles. "All Double" is a distinct type and almost every plant will produce large showy orange flowers full and double. Pkt., 10c; 3 pkts. for 25c.
- 424. Golden Gold.** Brilliant orange, carnation-like flowers with loosely ruffled, broad petaled, flower form on 2- to 2½-foot branching plants. Pkt., 8c.
- 425. Lemon Ball.** Densely double large lemon-colored flowers. Plants tall, flowers large and quilled. Pkt., 5c.
- 426. Orange Ball.** Similar to Lemon Ball, but bright orange color. Pkt., 5c.
- 427. Dwarf African Mixed.** A mixture of the low African varieties including Pride of the Garden and Delight of the Garden. Pkt., 5c.
- One packet of each of eleven African Marigolds for 50c.

French Marigolds

- 428. Harmony.** Deep orange centers flanked by velvety dark maroon-brown guard petals. Plants compact, 1 foot tall. Blooms early. Pkt., 10c.
- 429. Robert Beist.** Deep mahogany-red. Pkt., 10c.
- 430. Royal Scot.** Dwarf compact plants. 100 per cent double. Rich mahogany and gold in uniform stripes. Pkt., 10c.
- 431. Monarch Strain Mixed.** Compact habit with large flowers in shades of orange, brown and yellow. Pkt., 10c.
- 432. Signata Pumila, Golden Ring.** About 6 inches tall. Fernlike foliage covered with hundreds of gay deep orange single blossoms. Pkt., 10c.
- One packet of each of five French Marigolds for 40c.

Mesembryanthemum

- (Ice Plant) (ra). Dwarf trailing succulent plant suitable for edgings and rock gardens.
- 437. Criniflorum** (*Livingstone Daisy*). Plants spreading, covered with quantities of Daisy-like flowers about 1 inch across. Colors: Primrose, buff, apricot, crimson, and pink. Pkt., 10c.
- 438. Crystallinum.** Leaves are covered with icelike globules so that they glister and sparkle as if frosted with ice. Pkt., 8c.

Mignonette

- (*Reseda*) (a). The Mignonette is highly prized for its rich and agreeable fragrance. The flowers are small, but produced in great abundance on short spikes. Will blossom in house in winter.
- 439. True Machet.** One of the best and most popular sorts, dwarf, compact and vigorous. Flowers red. Pkt., 5c.
- 440. Fine Mixed.** All the new large-flowered Hybrids in best mixtures. Pkt., 5c.

Mirabilis

- 441. Mixed** (*Marvel-of-Peru* or *Four O'clock*) (a). Flowers, which are tube-shaped, grow in clusters which open in the afternoon about 4 o'clock. Red, white, rose, yellow and variegated. Pkt., 5c.

Mimulus

- 442. Tigrinus.** (*Monkey Flower* or *Musk Plant*) (a). Dwarf bushy plant with large *Gloxinia*-like flowers handsomely blotched and striped. Pkt., 8c.

Moonflower

- (c). A beautiful vine which grows rapidly, making a fine shade. Blooms from July until frost.

- 443. Early Blooming.** Blooms at night and stays open until noon of the next day. White blossoms, 3 to 6 inches in diameter. Pkt., 8c.

- 444. Giant Pink.** Lavender-pink flowers. Blooms at night and on cloudy days. Pkt., 8c.

Morning Glory

- (c). Easily grown vines which will flourish in any soil in full sun.

- 445. Heavenly Blue.** Sky-blue shading to golden yellow in the throat. Blossoms 4 to 5 inches across. Pkt., 10c.

- 446. Crimson Rambler.** Ruby-red with white throats. Pkt., 10c.

- 447. Pearly Gates.** Pure white flowers 4½ inches across, freely produced on fast growing vines. Pkt., 10c.

One packet of each of three Morning Glories above for 25c.

- 448. Tall Imperial Mixed.** Large flowers in a full range of colors, white, blue, red and purple tones. Pkt., 5c.

Myosotis

- 449. Mixed** (*Forget-me-not*) (p). A sweet little hardy perennial with a long blooming season. Prevailing colors are lavender, blue, white and pink. Fine for borders and cutting. Pkt., 6c.

Nasturtium, Golden Gleam

Marigold, Guinea Gold

Nasturtiums (a).

DOUBLE SWEET-SCENTED GLEAM TYPE

Bushy strong plants which throw out 18-inch runners. Large flowers, long stems.

- 450. Mahogany.** Deep mahogany-red.

- 451. Supreme.** Salmon-cerise, sweet scented.

- 452. Golden Gleam.** Large golden yellow flowers, fragrant.

- 453. Orange Gleam.** Deep glowing golden orange.

- 454. Scarlet Gleam.** Fiery scarlet.

- 455. Salmon Gleam.** Delicate golden salmon.

- 456. Moon Gleam.** Light golden cream.

Each variety: 8c a pkt.; collection

of 7 for 50c.

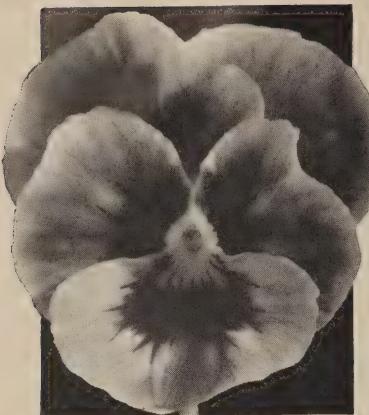

- 457. Glorious Gleam Hybrids Mixed.** A mixture of all the double Sweet-Scented Nasturtiums. Pkt., 6c; oz., 25c.

- 458. Golden Globe.** Compact plant growing about 12 inches high, bearing many large golden flowers well above the foliage. Fine for borders. Pkt., 8c.

- 459. Gem Mixed.** Plants extra dwarf and compact. Sweet scented blooms in a fine range of colors. Pkt., 8c.

- 460. Dwarf Mixed.** Mixture of all desirable dwarf sorts, new and old. Pkt., 5c; oz., 20c.

- 461. Tall Mixed.** Good mixture of trailing and tall sorts. Pkt., 5c; oz., 20c.

Swiss Giant Pansy

Petunia, Flaming Velvet

Phlox Drummondii

Nemesia

462. **Mixed** (a). Dwarf plant with orchid-like flowers in shades of rose, yellow, blue and orange. Good for beds and borders. Pkt., 10c.

Nemophila

(Baby Eyes) (a). Little rock garden plant bearing a profusion of cup-shaped flowers.

463. **Baby Blue Eyes**. Sky-blue flowers with white centers. Pkt., 6c.

464. **Mixed**. Blue and white. Pkt., 5c.

Nicotiana

(Flowering Tobacco) (a). Grows about 2 feet tall with fragrant, tube-shaped flowers, the petals of which form a star.

465. **Affinis Hybrids**. Brilliant shades of rose, red, crimson and creamy white. Pkt., 6c.

466. **Sanderae**. A little smaller than Affinis but bloom all day. Pkt., 6c.

Nigella

(Love-in-a-Mist) (a). Curious double flowers nestle in feathery bright green foliage. 1 foot tall.

467. **Miss Jekyll**. Cornflower-blue. Pkt., 6c.

468. **Fine Mixed**. Shades of blue and white. Pkt., 6c.

Oenothera

469. **Lamarckiana** (Evening Primrose) (p). Enormous yellow flowers of Morning Glory shape borne on plants 3 feet tall. Pkt., 5c.

Oxalis

470. Attractive border and rock garden plant with shamrock-like foliage. Yellow only, pkt., 10c. Bulbs of pink and white Oxalis, 10 for 10c.

Pansies

Pansy seed sown in late July and early August in a rich, well-drained position, lightly protected through the winter, will produce an abundance of flowers in the cool days of early spring. Seeds may be sown indoors or in hotheds in early spring and transplanted.

SWISS GIANTS

Flowers are very large, borne on long stems on very strong plants.

476. **Alpenglow**. Rich velvety garnet-red with large blotch on each of three lower petals.

477. **Coronation Gold**. Canary-yellow, lower petal flushed golden orange, slightly ruffled.

478. **Rheingold**. Golden yellow with deep brown blotches.

479. **Ullswater (Swiss Blue)**. Deep ultramarine blue.

480. **White**. Pure snowy white.

481. **Mixed**. All the above as well as many others of the Swiss Giants.

Any of the above, 15c a pkt; collection of the six for 75c.

482. **Trimardeau Giants Mixed**. These are the well known giant Pansies and run in almost every color and combination. Pkt., 10c.

483. **Masterpiece Mixed**. A mixture that everybody loves. Blossoms are very large and are frilled and ruffled to appear almost double. Colors very rich. Pkt., 15c.

Petunias

The great value of Petunias is due to the fact that they bloom profusely in brilliant colors from early summer until frost. Excellent for window boxes and bedding. May be sown inside and transplanted or sown outside after May 1st.

BEDDING PETUNIAS

484. **Flaming Velvet**. Velvety rich blood-red flowers.

485. **Gen. Dodds**. Deep crimson flowers.

486. **Howard's Star**. Crimson-maroon, almost purple, with a clearly defined star of white.

487. **Violacea**. Deep violet.

488. **White King**. Pure white.

489. **Show Mixed**. A choice selection of bedding Petunias in many colors. Any variety of bedding Petunias: Pkt., 8c; the six for 40c.

DWARF BEDDING PETUNIAS

Mound-shaped compact plants about 1 foot tall.

490. **Rose of Heaven**. Rose-pink.

491. **Snowball**. Pure white.

492. **Norma**. Blue with white star.

493. **Fancy Bedders or Inimitable**. Shades of red and rose blottedched and striped.

494. **Heavenly Blue**. A beautiful silvery blue.

495. **Cockatoo**. Deep violet-blue, marked irregularly in white.

496. **Name Erecta or Bush Mixed**. A choice selection of dwarf sorts.

Dwarf Petunias: Pkt., 8c; 1 packet of each of the 7 for 50c.

497. **Balcony Mixed**. While this class of Petunias bloom well anywhere, they are indispensable for window or porch boxes. Plants have a drooping habit and hang gracefully over the edge of window boxes. Vigorous profuse bloomers with flowers 2 to 3 inches across. Pkt., 8c; 2 pkts., 15c.

498. **Crumpled Giants**. A giant flowering class of Petunias with very large crumpled and curled blossoms. The colors are magnificent, many being double-colored, marked, zoned and striped with various colors. Very desirable for bedding or blooming in hours. This mixture also contains the choicest colors of Fluffy Ruffler Petunias. Pkt. of about 75 seeds for 15c.

499. **Double Mixed**. These have never been surpassed in color, form or size. Every flower has been cross fertilized with the greatest care so nearly all will come perfectly double. It would be impossible to mention the many new and beautiful colors in these. Many of the flowers measure 5 inches across, none less than 3 inches, and are fluted, frilled, ruffled and pinked in strange and beautiful ways. Pkt., 50 seeds, 25c.

DEPOSIT SEED COMPANY

Phacelia

500. *Campanularia* (Bee's Friend, or California Blue Bells) (a). Attractive little plants suitable for sunny rock gardens. Gentian-blue flowers with white anthers. Pkt., 8c.

Phlox Drummondii

(Annual Phlox) (Texas Pride). One of the showiest and most popular annuals. From seeds sown in spring, plants commence to blossom in June and continue to grow in a little bush or tree form till fall, and are always aglow with brilliant blossoms of all colors. It is not only one of the most brilliant annuals, but of easiest culture and most satisfactory for masses, beds or borders.

506. Pure White. Clear, pure white.

507. Brilliant Scarlet. Rich, dazzling scarlet, too brilliant to gaze at.

508. Yellow. Creamy yellow.

509. Rose. Pretty rose color. White eye.

510. Violacea. Violet-blue with large white eye.

511. Crimson Eye. Brilliant crimson, white eye.

512. Stellata Splendens. Scarlet, white eye.

513. Brilliant. Rose with dark eye.

Any Phlox: Pkt., 8c; 1 packet each of above 8 Phloxes for 58c.

514. Show Mixed. All the best sorts of annual Phlox in a well-balanced mixture. Pkt., 6c.

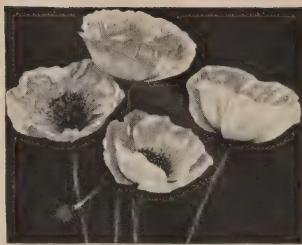

515. Gigantea Art Shades Mixed. Largest of all annual Phlox. Individual florets are 1 1/4 to 1 1/2 inches across, borne freely in massive trusses on plants 10 inches tall. Mixture of soft art shades. Pkt., 10c.

516. Gigantea Art Shades, Salmon Glory. Pure salmon pink with white eye. Huge flowers. Pkt., 10c.

517. Nana Compacta Mixed. Dwarf compact plants about 6 inches tall. Good for borders and rock gardens. Pkt., 8c.

518. Nana Compacta, Cecily Mixed. Large flowering compact Phlox in a fine mixture. Pkt., 10c.

519. Star Mixed. Mixture of fringed and star-shaped Phlox. Ragged and fringed edges. Pkt., 8c.

Iceland Poppy

Annual Poppies

Showy plants in brilliant colors. Sow where they are to bloom as they dislike transplanting. Certain types cannot be supplied any more because of regulations of the United States Narcotic Division.

520. Art Shades. Delicate, artistic shades.

521. Shirley Mixed. Silk-like petals in all shades from purest white to deepest crimson, many being striped, tipped and zoned.

522. Double Shirley Mixed. Double and semi-double blooms with narrow or broad petals, according to variety. Fine mixture.

523. American Legion. A beautiful orange-scarlet Poppy with yellow anthers.

524. Dazzler. This beautiful Begonia-flowered Poppy is a deep rich orange-scarlet and has true Begonia formed double blossoms. Blooms quickly from seed.

525. Sweet Briar. A wild-rose-pink. Blossoms like those of Dazzler resemble a double tuberous Begonia.

526. Riverdale Mixed. Grown and sold by us for years. Contains everything choice in hundreds of varieties, from the massive Peony sorts to the delicate Shirley strains. It affords an endless variety for all and cannot be surpassed.

Any of above Poppies: 6c a packet; 1 packet of each, 35c.

Perennial Poppy

Iceland Poppies

Charming for borders and rock gardens. They are of graceful, neat habit with bright green, fernlike foliage formed in tufts, from which issue slender stalks about 12 inches high bearing brilliant flowers in endless profusion.

527. Mixed. Mixture of many colors.

529. New Sunbeams. Cross between Shirley and Iceland Types.

Flowers are shades of orange, salmon and maize.

530. Art Shades. Large flowered, soft pastel shades.

Iceland Poppies: 8c a pkt.; 3 for 20c.

Pyrethrum

Oriental Poppies

A charming summer flowering, hardy plant, producing numerous leafy stems about 2 1/2 feet high, with large deep flowers, having a conspicuous black blotch on each petal, exceedingly showy.

531. Mahogany. The deepest dazzling crimson imaginable, conspicuous in any place. Pkt., 10c.

532. Oriental Scarlet. The well-known dazzling orange-scarlet. Pkt., 6c; 2 pkts., 10c.

Single Portulaca

Portulaca

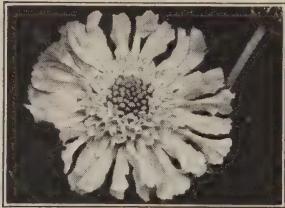

(Sun Plant or Rose Moss) (a). One of our finest hardy annual plants, of easy culture, thriving best in a rather rich light loam or sandy soil, and luxuriant in an exposed sunny situation: the flowers are of the richest colors, and produced throughout the summer in great profusion; fine for massing in beds, edging or rockwork, and frequently used to sow broadcast over sunny banks.

533. Single Mixed. Our choicest single sorts from the purest white to the brightest yellows and deep crimson. For a solid bed they make a gorgeous sight on sunny days. Pkt., 6c.

534. Double Mixed. All choicest colors. Double as small Roses. Remains open longer than single flowers and are even more desirable for bedding or borders. A large percentage of the flowers will come perfectly double, of the most brilliant scarlet, crimson, white, yellow, etc. Pkt., 8c.

Schizanthus Wisetonensis

Scabiosa Caucasica

Scabiosa, Blue Cockade

Primula

(Primrose) (gr). Primroses are among the best known and most popular winter flowering plants. Seeds sown in spring produce plants which will bloom throughout the following winter and require little care.

541. Giant Obconica. One of the grandest, showiest and freest blossoming of all house plants. Blossoms the year around and is always loaded throughout winter, when flowers are most needed. Seed sown in spring will produce plants which commence to bloom in fall and continue to grow and produce blossoms in the lovely shades of lavender, pink, etc., throughout the winter. Pkt., 15c.

542. Baby Primrose. A small flowering sort which is a free and continuous bloomer. One of the best blooming winter plants. Pkt., 10c.

543. Fancy Fringed Mixed. Choicest varieties of the Chinese Fringed, etc., in best mixture. This includes nearly all the varieties of Chinese Primroses found in greenhouses, etc. Pkt., 10c.

Hardy Primroses

(English Primrose) (p). These prefer half-shade and a rich well-drained location. Bloom early in the spring in rich colors.

544. Japonica. One of the best hardy Primroses for the garden; mixed colors. Blossoms in beautiful whorls around stem 12 to 18 inches high, considered one of the choicest. Pkt., 10c.

545. Veris Polyanthus. These are showy cluster flowered, making handsome display in spring. Pkt., 10c.

Platycodon

(Balloon or Bellflower) (p). Large violet-blue bell-shaped flowers something like Campanulas. Buds look like inflated balloons. About 2 feet tall. Pkt., 10c.

Pyrethrum

(Painted Daisy) (Insect Powder Plant) (p). Plants about 2 feet tall with fernlike foliage bearing white, rose, pink and red Daisy-like flowers in May and June.

547. Single Mixed. Pkt., 6c.

548. Double Mixed. Some single and semi-double flowers are expected in seed saved from double blooms. Large percentage will be double. Pkt., 10c.

Ricinus

549. Zambiaricensis (Castor Oil Bean) (a). Immense, palmike leaves, 2 to 3 feet across. Plants form a compact, tropical looking bush, 4 to 6 feet high, in two to three months from seed. Fine for lawn or background. Surpasses in size and beauty all varieties. Our mixture has light and dark green leaves, and some of coppery bronze. Pkt., 5c.

Salpiglossis

550. Emperor Mixed (Painted Tongue or Velvet Flower) (a). Beautiful funnel-shaped flowers having dark veins on a ground which varies from white to crimson, yellow and purple. 2½ feet tall. Blooms from July until frost. Pkt., 10c.

Salvia

(Scarlet Sage) (a). Brilliant bedding plants, the seed of which should be started indoors.

551. Bonfire. This variety is one of the finest Salvia for bedding yet introduced. The plants grow into very compact oval bushes about 2½ feet high and produce long spikes of brilliant scarlet flowers. Over 200 spikes to a plant is not unusual, and the spikes bear from 20 to 30 flowers each. Gorgeous effects can be produced massed on lawn or in the garden, or planted in rows along a sunny drive, where the brilliant scarlet is simply dazzling. Pkt., 10c.

552. America or Globe of Fire. The dwarf plants are of compact rounded growth. Each spike is closely set with mammoth size flowers of the most brilliant scarlet. It begins to bloom early in the season and continues until cut down by frost. Pkt., 10c.

553. Patens. A tender perennial variety with erect stems, bearing large, broad tubular-lipped flowers of a most superb rich blue coloring. Can be kept as a house plant in a warm room during the winter. Pkt., 20c.

Sanvitalia

554. Procumbens (Creeping Zinnia) (a). Masses of small Zinnia-like blooms of golden yellow on creeping plants 6 inches tall. Blooms summer and fall, fine for rock gardens. Pkt., 10c.

Scabiosa

(Pincushion Flower or Mourning Bride) (a). Seed can be sown any time in the spring after danger of frost is past. They grow 2½ feet high, and come into bloom early in July, and continue without interruption until hard frost. The beautiful flowers in exquisite shades are borne on long stems, and when cut keep in perfect condition for the best part of a week.

555. Shasta. Pure white. Long stems.

556. Cherry-Red or Crimson.

557. Blue Cockade. Dark azure-blue flowers.

558. King of Blacks. Deep rich velvety mahogany-purple.

559. Loveliness. Salmon-rose shades.

560. Dwarf Double Mixed. Compact plants 1½ feet tall, suitable for borders.

561. Tall Mixed. Well-blended mixture of taller sorts.

Any variety: Pkt., 8c; the seven for 50c.

Scabiosa, Perennial

562. Caucasica Perfecta (Blue Bonnet) (p). A new strain of hardy perennial Scabiosa with light blue flowers on long stems. Grows 18 inches high and is very desirable for cut flowers. Blooms from June till October. Pkt., 10c; 3 pks., 25c.

DEPOSIT SEED COMPANY

Schizanthus

(Butterfly Flower or Poor Man's Orchid) (a). A charming annual with graceful, fernlike foliage and a profusion of flowers varying from almost white with yellow eye to a brilliant rose with bronzy brown center. Sow outdoors from April till July. They commence blooming in two months or less and continue blooming profusely till late in fall. For bouquets, cutting or florist's work they have few equals. They are especially desirable for bedding or borders.

563. **Sunset Hybrids.** Fine bright mixture. Free flowering compact pyramidal plants, 12 to 15 inches tall. Pkt., 10c.

564. **Dr. Badger's Hybrids.** Very large flowers, brilliant range of colors from light pink to deep purple through rose, each flower with a large golden blotch. Pkt., 15c.

Stachys

565. **Lamata** (Lamb's Ear or Wooly Woundwort) (p). Suitable for rock gardens. Leaves velvety white, flowers rosy purple. About 1 to 1½ feet tall. Pkt., 10c.

Stocks

(a). Start seed indoors. Plants produce heavy spikes of fragrant rosette-like flowers in a wide range of colors. Suitable for bedding or cutting.

566. **Nizza Giant** (Early Branching Nice). Plants about 18 inches high, of pyramidal shape. Early. All colors. Pkt., 10c.

567. **Early Giant Imperial** (Improved Bismarck). A florist's money-maker. Grows 24 to 36 inches high, branching freely. Very early blooming and produces a high per cent of doubles in choice colors. Pkt., 10c; 3 pkts. for 25c.

Stokesia

568. **Cyannea** (Cornflower or Stokes' Aster) (p). The plant grows from 18 to 24 inches high, bearing freely from early June until late in October, its handsome lavender-blue Centaurea-like blossoms which measure from 4 to 5 inches across. It is of the easiest culture, succeeding in any open, sunny position; desirable as a single plant in the hardy border and effective in masses or beds of any size. Pkt., 10c; 3 pkts., 25c.

Sweet Peas (c).

Sweet Peas do best in cool weather. If seed is not sown in the fall, plant it as early in the spring as possible. They like a sunny location with deep rich soil.

Early Flowering Spencers

These bloom 3 to 4 weeks earlier than others. They are also valuable for winter flowering under glass. Flowers large, waved and fluted.

576. **Shirley Temple.** Delightful soft rose-pink. Fluted. Long stems.

577. **Lavanda.** Clear lavender, waved and well spaced on stems.

578. **Annie Laurie.** Pure rose-pink.

579. **Lady Gay.** Soft shrimp-pink.

580. **Laddie.** Long stemmed, giant, rose-pink.

581. **Blue Ball.** Cornflower-blue.

582. **Rose Ball.** Sparkling bright rose. Ruffled.

583. **Mrs. Herbert Hoover.** Clear, rich, deep blue.

584. **Vulcan.** Vivid orange-scarlet.

585. **Red Cross.** Poppy-scarlet. Extra large.

586. **Aviator.** Dazzling crimson.

587. **Mrs. Calvin Coolidge.** Rich salmon-pink suffused with orange.

588. **Blue Bird.** Rich violet-blue.

589. **Glimmers.** Brilliant cerise.

590. **Snowstorm.** Pure white.

591. **Giant Rose.** Extremely large rose-pink.

Early Flowering Spencers are 8c a packet; 1 packet of each of the 16 listed above for \$1.00.

592. **Early Flowering Mixed Spencer.** A complete mixture of all the best named varieties. Pkt., 8c; ½ oz., 15c; oz., 25c; ¼ lb., 75c.

Ruffled Spencers

Waved and ruffled flowers which look almost double. Long stems usually bearing four flowers.

593. **Fluffy Ruffles.** Dainty cream-pink.

594. **Ruffled Carmine.** Lovely carmine-rose.

595. **Ruffled Beauty.** Cream-pink with a sheen of lilac.

596. **Ruffled Orchid.** Lavender-pink with a mauve sheen.

597. **Ruffled Rose.** Rich rose.

598. **Ruffled Mixed.** Many new and pleasing shades.

Ruffled Sweet Peas: 7c a packet; the six for 34c;

½ oz., 20c; oz., 35c.

Summer Flowering Spencers

599. **Miss California.** Salmon-cream-pink.

600. **Guinea Gold.** Cerise-orange.

601. **Campfire.** Bright scarlet.

602. **Powerscourt.** Very fine pure lavender.

603. **Avalanche.** Dazzling pure white.

604. **Ambition.** Rosy lavender.

605. **Floradale.** Rich salmon-pink on a cream ground.

606. **Daffodil Improved.** Deep daffodil-cream.

607. **Mary Pickford.** Dainty cream-pink suffused with salmon.

608. **Mrs. Tom Jones.** Delphinium-blue.

Packet 7c; each of the ten for 55c.

609. **Spencer Mixed.** A complete mixture of Spencer Sweet Peas in a fine range of color. ½ oz., 10c; oz., 15c; ¼ lb., 50c.

610. **Grandiflora Mixed.** 1 oz., 10c; ¼ lb., 30c.

Sweet Peas

SWEET PEAS

We have a large number of varieties in small quantities which are not listed in our catalog. All good sorts. We put these up in bundles of 10 packets each. About 50 seeds in a packet. We mail them at

25c for the ten varieties.

Sweet William, Giant Mixed

Tritoma

Tithonia

Giant Verbena

Sweet William

- (p.) Thrives in any good soil, producing fine clumps bearing colorful heads of bloom.
- 616. Annual Mixed.** So-called because it flowers the first year from seed sown early. However, it will live over winter and last several years. All colors. Pkt., 8c.
- 617. Giant Mixed.** Contains many new and desirable varieties both in solid, zoned, and auricula shades. Pkt., 5c.
- 618. Double Mixed.** Many grand sorts and combinations. Very fine. Pkt., 6c.
- 619. Dwarf Alpine Mixed.** A splendid free-flowering compact plant for the rock garden. The plants grow about 6 inches high and make a compact spread of a foot or so. When in full bloom hardly any of the rich green foliage is visible. The color range is magnificent. There are lots of splendid self colors and many eyed, edged, and crowned color combinations. Pkt., 10c.

Sweet Wivelsfield

- 620. Mixed (a).** Resembles a large flowering Sweet William but carries its flowers more gracefully and well above the foliage and has a greater variety of colors. Excellent for cut flowers or bedding. Continuous bloomer. Pkt., 10c.

Tithonia

- 621. Orange Vermilion** (Mexican Sunflower or Golden Daisy of the Incas) (a). Brilliant orange-scarlet Dahlia-like flowers, 3 to 4 inches across, are borne on stately plants with heavy dark green foliage. Blooms in fall 6 feet tall. Pkt., 10c.

Tritoma

- 622. Hybrida** (Red Hot Poker or Torch Lily) (p). A new Red-Hot Poker. Blooms the first year from seed it sown in March. Its orange-scarlet flowers are borne most freely from July to October. A most valuable cut flower. Pkt., 25c.

Venidium

- 623. Fastuosum Hybrids** (Monarch of the Veldt) (a). One of the most admired of all flowers. Large Daisy-like blossoms 4 to 5 inches across with double row of petals, upper row marked with beautiful colored zones. This is a magnificent fall annual from South Africa with woolly grayish green foliage. Many colors in these new hybrids. Pkt., 10c.

Verbena

- (a). Dwarf plants ideal for edgings. Large trusses of beautiful flowers from midsummer until late fall. Thrives in poor soil and will withstand drought.

Giant FLOWERED

- Of spreading growth. Very large flowers produced in quantity on strong plants.

- 624. Beauty of Oxford.** Shades from rose-pink to deep rose-red.

- 625. Dannebrog.** Brilliant scarlet with white eye.

- 626. Spectrum Red.** Vivid crimson.

- 627. Lavender Glory.** Lavender with cream eye.

- 628. Royale.** Deep royal blue with creamy yellow eye.

- 629. Florade Beauty.** Very large flowers in rose and red shades.

- 630. Giant Mixed.** All colors of the large flowering Verbenas in a fine mixture.

- Giant Verbenas:** Packet, 10c; collection of 1 packet of each of the seven for 50c.

- 631. Royal Bouquet Mixed.** Plants grow upright, 16 to 18 inches tall. Very neat. All colors. Pkt., 10c.

- 632. Nana Compacta Mixed.** Dwarf bushy class about 7 inches tall. Does not creep and spread. Pkt., 8c.

- 633. Mammoth Mixed.** Balanced mixture of Verbenas of all types. Pkt., 6c; 2 pkts., 10c.

Veronica

- 634. Spicata** (Speedwell) (p). This hardy perennial has become very popular, especially for the hardy border. It grows 18 inches high, and is covered all summer with spikes of bright blue flowers, which are highly desirable in the garden. Pkt., 8c.

Vinca

- 635. Mixed** (Old Maid Periwinkle) (a). Dark green laurel-like leaves. Showy flowers with bright eye, mostly rose and white. Plants about 1 foot high and are good for bedding or window boxes. Pkt., 8c.

Viola

- 636. Cornuta Mixed** (Tufted Pansies) (p). Smaller flowered than Pansies. Grow about 6 inches tall. Will bloom the first year. Pkt., 10c.

Wallflower

- Lovely fragrant flowers in red, brown, mahogany and yellow shades. Spikes resemble Stocks.

- 637. Double Mixed** (p). One of the most popular of all flowers in England and other warm countries. Lives through winter and blooms early in spring. Needs protection in cold latitudes. Very fragrant. Pkt., 10c.

- 638. Early Wonder** (a). A new double annual Wallflower produced from crossing the early Parisian and double sorts. One of the best things offered. Pkt., 10c; 3 pkts., 25c.

Zinnias

(a.) Zinnias are among the most popular annuals because of their variety of shape and color, ease of culture and long blooming season. They need rich soil and full sun. Sow in the open ground when the soil becomes warm and thin out so that large flowering types have 2 feet of space.

646. Cupid Mixed. The smallest perfect flowering double Zinnias. Plants grow about 1 foot high, branch near the ground and send up numerous stems surrounded with dainty flowers. Plants are round and produce flowers in profusion which have slender stems long enough for bouquets. Pkt., 10c.

647. Navajo Mixed. Resemble in their rich color combinations the Mexican Zinnias. Very unique, with flowers of medium size, double and semi-double and composed of long narrow petals, which are tipped with white, cream, etc. There is a wide range of colors in two-tone effect. Pkt., 10c.

648. Crown of Gold, Desert Gold. A variety loved for dual tone beauty. Comprises the lighter and deeper shades of gold. Base of petals overlaid with deep golden yellow. Blossoms medium size and produced in abundance. Pkt., 8c.

649. Crown of Gold Mixed. The new Crown of Gold mixture contains a fine array of colors. Each petal is overlaid with deep golden yellow at its base, while it carries out its individual flower color at the tips. Very showy. Pkt., 8c; 2 pks., 15c.

650. Fantasy, Stardust. Medium size with the shaggy informality of the Fantasy type. A lovely golden yellow which looks wonderful in bouquets and make up work. Pkt., 10c.

651. Fantasy Zinnias Mixed. Splendid large blooms that will give a fine display in the garden and make a lovely bouquet. The flowers are well rounded. They are composed of a mass of shaggy raylike petals which give it unusual character. The color range is most varied and beautiful, including all the typical Zinnia shades. Pkt., 8c.

652. Linearis. Flowers, which are single, are a lovely shade of golden orange with a delicate lemon-yellow stripe through each petal while the center is dark brown in the young flowers turning golden orange as the pollen develops. It is very early blooming, starting to flower 6 weeks after seed is sown. This plant is suitable for border or edging and is excellent for window boxes or in any part of the garden where a dwarf growing plant with brilliant coloring is desired. Pkt., 10c.

653. Scabious Flowered Mixed. Flowers resemble a Scabiosa more than the old-fashioned Zinnia. They have a typical cushion composed of small flower petals in the center surrounded by longer and broader petals on the outside. The color range is most interesting and complete. The plants grow 24 to 30 inches tall and bloom profusely throughout the season. Pkt., 10c; 3 pks., 25c.

654. Lilliput Mixed. Plants of Lilliput Zinnias have a neat dwarf-branched habit. They grow 12 to 15 inches high and are literally covered with exquisite double pompon flowers. Fine for borders, beds or cutting. Pkt., 8c.

655. Red Riding Hood. This little gem grows but a foot high; of compact form and covered the entire season with little button-like, intense scarlet, very double flowers not over one inch across; as a border it is highly effective. Pkt., 8c; 3 pks., 20c.

Dahlia-Flowered Zinnias

Gorgeous long-stemmed flowers resembling Dahlias. Blooms 5 inches across are produced on plants 3 feet tall.

656. Canary Bird. Primrose-yellow.

657. Dream. Deep rosy lavender turning to mallow purple.

658. Exquisite. Light rose with deeper rose center.

659. Crimson Monarch. Deep crimson. Extra large.

660. Will Rogers. Lovely brilliant scarlet-red.

661. Polar Bear. Large creamy white.

662. Scarlet Flame. Bright scarlet.

663. Illumination. Deep rose.

664. Old Gold. Rich shades of old gold.

665. Oriole. Golden orange with reddish orange centers.

666. Old Rose. Old rose shades.

667. Golden Dawn. Golden yellow.

668. Golden Bells. Golden shell-pink.

669. Luminosa. Deep bright pink.

670. Dahlia-Flowered Mixed. Mixture of many named varieties, blended for a colorful display.

Dahlia-Flowered Zinnias: 10c a pkt.; collection

of 15, \$1.00.

California Giants

Overlapping petals more loosely placed than the Dahlia Flowered. Flowers more flattened.

671. Daffodil. Canary-yellow.

672. Lavender Gem. Deep rosy lavender.

673. Orange King. Cadmium or orange-scarlet.

674. Cerise King. Beautiful cerise-rose.

675. Enchantress. Light rose, deeper rose center.

676. Purity. Pure white.

677. Scarlet Gem. Deep scarlet.

678. Brightness. Bright pink.

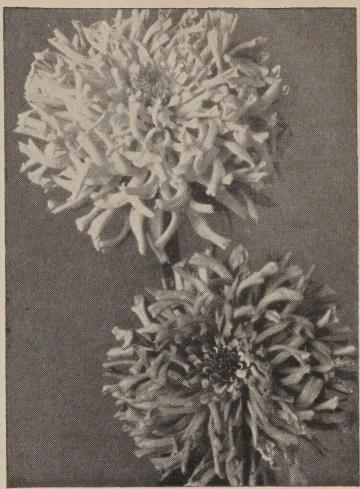

679. Mixed. All the above and others in a grand mixture.

Any California Giant Zinnia: Pkt., 10c;

the nine for 70c.

680. Early Wonder Gypsy. Bright orange-scarlet flowers with a bronze cast. Very early. Masses of blossoms on long, almost leafless stems. Pkt., 10c.

681. Giant Mixed. Large round, well-shaped flowers with broad smooth petals. Smaller than California Giants and Dahlia Flowered. Pkt., 6c.

Zinnia, Fantasy Mixed

682. Cut-and-Come-Again Mixed. Medium-sized flowers, ideal for cutting, freely produced on compact branching plants about 1½ feet tall. Pkt., 6c.

683. Mexican Mixed. Dwarf well-branched plants 1 to 1½ feet tall, with narrow leaves. Small colorful blossoms in shades of yellow, orange, red, maroon and mahogany, some bordered and picoteed with brilliant color. Pkt., 8c.

New Large-Flowering Dahlias

Barbara Redfern. Giant size; a delightful blend of old rose and old gold. Good companion for Jane Cowl. 30c each; 2 for 50c.

Charm. Grand bloomer on good stems. Orange shaded to red. 25c each.

Jane Cowl. Massive blossoms a foot across. Bronzy buff and old gold, blending darker. 30c each.

Sequoia Gigantea. A gigantic rich buttercup-yellow Decorative Dahlia; producing freely flowers 10 inches across on long stems. Vigorous continuous bloomer. 25c each.

Monmouth Champion. (Decorative.) Flame-scarlet flowers 12 inches or more across. Full center. Good stems. Strong grower. 30c each.

Pride of California. Brilliant glowing cardinal-red. Large size; strong stems. 25c each.

City of Poughkeepsie. Large semi-cactus type. Magenta with white tips. 25c each.

Sagamore. An exceptionally fine exhibition or cut flower of a golden color, shaded toward the center with warm salmon-rose or orange-buff. Stems straight and stiff. 20c each; 3 for 50c.

Omar Khayyam. A Chinese red at the base of the petals, shading to a bright orange with paler tips, giving a soft effect. The flowers can easily be grown over 10 inches. 25c each; 3 for 65c.

Rosalie Styles. Very showy. Art or Peony-Flowered Dahlia of a rich rose-pink. 40c each; 2 for 75c.

Cycle. Rich true red, self colored. Large flowers. A perfect Cactus variety. 20c each; 3 for 50c.

Floral Park Jewel. Popular old variety. Crimson and white blotched. 25c each; 3 for 60c.

Hogan. Best large red and white bicolor Decorative Dahlia. Wide range of markings on a single plant. 25c each.

Countess of Lonsdale. (Cactus.) A delicate apricot shading toward the edges of the petals to carmine-pink. Early. 25c each; 3 for 65c.

Kentucky. A sport of Jersey's Beauty and of the same splendid habit. The large blooms are light salmon-orange shading to grenadine-orange. 20c each; 3 for 55c.

Mallory. Large rose-red Formal Decorative type Dahlia. 25c each.

Jersey's Beacon. Of enormous size and carried on elegant long and strong stems. Chinese-scarlet with lighter reverse. 20c each; 3 for 50c.

XXX Mixed Dahlias. This mixture is made up entirely of choice, expensive varieties. We have secured samples of new giant flowering sorts from many growers and have a fine large collection. 2 bulbs for 40c; 6 for \$1.00.

GLADIOLUS

Albania. Popular pure white. Fine for cut flowers. Good spikes of well-placed bloom. 2 for 12c; 5 for 25c; 12 for 50c.

Albatross. Another fine white. Splendid for exhibition purposes with 6 to 8 large flowers open at one time. 2 for 12c; 5 for 25c.

Baggad. Smoky old rose, deeper at edge of petals and lighter in the throat. Five to seven immense blossoms open at one time and carried on immense spikes. 2 for 12c; 5 for 25c.

Betty Nuthall. A magnificent large coral-pink flower with a light orange throat. 3 for 15c; 6 for 25c.

Berty Snow. Very large flower of a beautiful lavender. Long spikes. A prize winner. 2 for 12c; 5 for 25c; 12 for 50c.

Dr. F. E. Bennett. Peach-red overlaid with flame-scarlet. 3 for 15c; 2 for 25c.

Flaming Sword. Exquisite new variety; tall, large-flowered red. 3 for 15c; 6 for 25c.

Minuet. Large, light lavender. 3 for 15c; 6 for 25c.

Chateau Thierry. Large salmon-pink. 3 for 15c; 6 for 25c.

Golden Swallow. Delightful new ruffled yellow. 3 for 15c; 12 for 45c.

Los Angeles. Beautiful shrimp-pink with glowing orange-carmine blotch in throat; tall and graceful stems. One of the best forcing varieties for florists, most bulbs blooming with two spikes. 10c each; 3 for 15c; 12 for 50c.

Gold Eagle. Very desirable extra early yellow. Fine spikes. 3 for 15c; 12 for 48c; 40 for \$1.00.

Pride of Wanckah. Exquisite lavender-rose, deeper in the throat. Fine, heavy spikes with large blooms. 3 for 15c; 12 for 50c.

Picardy. The most popular Gladiolus grown. Immense spikes of delicate apricot-color. Many flowers open at a time. Won more prizes than any other. 2 for 15c; 6 for 35c; 12 for 60c.

Shirley Temple. Cream-white color with tinted blush-pink throat. Immense ruffled blossoms on long, strong spike. 2 for 15c; 6 for 35c.

XXX Gladiolus Mixture. Our special mixture of Gladiolus bulbs is made up of the best varieties and will give a wide range of beautiful colors at a low price. We offer this special mixture of 7 bulbs for 25c; 12 for 38c; 30 for 75c; 100 for \$2.00, by mail.
